

Contents

1	Introduction	1
1.1	Background	1
1.2	Transition Modes	2
1.2.1	Natural Transition	2
1.2.2	Bypass Transition	3
1.2.3	Separation-Induced Transition	3
1.2.4	Reverse Transition	4
1.3	Transition Parameters	4
1.3.1	Free-Stream Turbulence	5
1.3.2	Pressure Gradient	5
1.3.3	Surface Roughness	5
1.3.4	Unsteady Velocity Fluctuation	6
1.3.5	Turbulent Viscosity	6
1.3.6	Other Factors	6
	References	6
2	Transition Prediction	9
2.1	Overview	9
2.2	Methods Based on Stability Theory	11
2.2.1	The e^N Method	11
2.2.2	Parabolized Stability Equation Method	12
2.3	Statistical Methods of Transition Modelling	12
2.3.1	Low Reynolds Number Turbulence Models	13
2.3.2	Correlation-Based Intermittency Models	13
2.3.3	The Laminar Kinetic Energy Method	15
2.4	Transition Simulation Methods	16
	References	17

3	Transition Model	21
3.1	The Langtry-Menter Transition Model	21
3.1.1	Transport Equation of Intermittency	23
3.1.2	Transport Equation of Transition Onset Reynolds Number	25
3.1.3	Correlation Formula	26
3.2	Modifications of Transition Model	30
3.2.1	Local Free-Stream Turbulence Intensity	31
3.2.2	Separation Correction Method	36
3.3	Integration with the S-A Turbulence Model	40
3.4	Integration with the SST Turbulence Model	43
3.5	Numerical Procedures	46
3.5.1	Normalized Transport Equations	46
3.5.2	Discretization Scheme	48
3.5.3	Flux Evaluation	49
3.5.4	Time Marching Method	50
	References	53
4	Validations in 2-D Flows	55
4.1	Description	55
4.2	Flat Plates	56
4.2.1	Zero-Pressure Gradients	59
4.2.2	Non-zero Pressure Gradients	61
4.3	Two-Dimensional Airfoils	64
4.3.1	Aerospatiale-A Airfoil	65
4.3.2	VA-2 Supercritical Airfoil	67
4.3.3	S809 Wind Turbine Airfoil	70
4.3.4	NACA 4412 Airfoil	75
4.4	Summary	81
	References	82
5	Applications for 3-D Rotors	83
5.1	XV-15 Proprotor	83
5.1.1	XV-15 Profile and Conditions	86
5.1.2	Hover Performance	88
5.1.3	Skin Frictions	90
5.1.4	XV-15 Flow Physics	95
5.2	JVX Proprotor	98
5.2.1	JVX Geometry and Conditions	98
5.2.2	Hover Mode	101
5.2.3	Modelling Issues	103
5.2.4	Airplane Mode	108
5.2.5	JVX Characteristics	111
