

Contents

| | | |
|----------|---|-----------|
| 1 | A Disturbing Inclination | 1 |
| | Bernoulli and the First Orbital Properties of Ceres in 1681 | 1 |
| | The End of Heavenly Harmony: The Perturbations of Pallas | 4 |
| | The Temple of Natural Philosophy | 7 |
| | The Orbit of Pallas and the Geometrical Structure of Space | 11 |
| | The Mass of Jupiter | 16 |
| | Laplace and the Grand Inequality | 19 |
| | References | 20 |
| 2 | The Great Probability Debate | 23 |
| | The Legacy of Leibniz | 23 |
| | The Most Delicate of Mathematical Theories | 28 |
| | The Historical Development of Probability | 30 |
| | Equipossibility | 35 |
| | Analogy and Probability | 37 |
| | The Origin of the Asteroids and the Twilight of Probability | 38 |
| | The Invention of Least Squares | 43 |
| | Gauss and Laplace: The Mathematical Link | 47 |
| | References | 49 |
| 3 | The Gold Medal | 53 |
| | Astronomy and the Republic of Letters | 53 |
| | Rivalry | 59 |
| | Reason and the Axiom of Solvability | 60 |
| | The Berlin Academy Prize | 65 |
| | The Paris Academy Prize | 67 |
| | The Pallas Prize | 70 |
| | The Prize Is Doubled | 73 |
| | The Prize and the Perturbation Calculations: A Timeline | 76 |
| | Lalande and the Asteroids | 76 |

| | | |
|----------|--|------------|
| | The Lack of Theoretical Work in England | 78 |
| | Scottish Common Sense Realism: Brougham, Stewart, and Reid | 81 |
| | Contemporary Views on the State of Astronomy in Great Britain. . . . | 83 |
| | References. | 89 |
| 4 | The Gauss Anagram | 93 |
| | The Origin of the Anagram. | 93 |
| | Concinnity. | 95 |
| | The Solution of the Gauss Anagram | 97 |
| | Gauss and the Royal Society. | 98 |
| | Gauss gives up | 100 |
| | The Royal Patrons. | 102 |
| | References. | 103 |
| 5 | Hypothetical Planets | 105 |
| | Ludwig's Star | 105 |
| | Vidal's Planet | 105 |
| | Olbers' Giant Planet | 108 |
| | Huth's Moving Star. | 108 |
| | Cassini's Planet of 1668 | 111 |
| | Cacciatore's Planet | 112 |
| | References. | 114 |
| 6 | New Planets: The Transition from 1745 to 1804. | 115 |
| | The Planetary Gap. | 115 |
| | A Wild and Romantic Idea | 118 |
| | Olbers' Asteroid Lectures | 126 |
| | The First Lecture (October 25, 1802) | 127 |
| | The Second Lecture (Late 1803). | 134 |
| | Hypothesis and Theory | 141 |
| | Lalande's Planetary Nomenclature | 143 |
| | Pallas: Chemistry in 1803 | 145 |
| | References. | 147 |
| 7 | The Olbers Letters | 149 |
| | Introduction to the Letters. | 149 |
| | Magnitudes of Ceres of Pallas | 149 |
| | Mutual Orbital Properties of Ceres and Pallas. | 151 |
| | The Letters | 152 |
| | References. | 156 |
| 8 | The Gauss Letters | 157 |
| | References. | 214 |
| 9 | The Harding Letters | 215 |
| | References. | 233 |

| | | |
|-----------|---|-----|
| 10 | Herschel's Asteroids | 235 |
| | Herschel's First Paper of 1802: Ceres | 235 |
| | Herschel's Second Paper of 1802: Ceres and Pallas | 237 |
| | Observations on the Two Lately Discovered Celestial Bodies. | 237 |
| | The Definition of an Asteroid | 248 |
| | Critiques of Herschel's Paper on Ceres and Pallas | 251 |
| | Two Ladies and a Comet | 260 |
| | Thomas Kuhn's Paradigm Shift. | 267 |
| | References. | 268 |
| 11 | Scientific Papers | 271 |
| | References. | 410 |
| 12 | Gauss: The Great Asteroid Treatises | 411 |
| | References. | 447 |
| | Appendix A | 449 |
| | Appendix B | 467 |
| | Index | 473 |

Studies of Pallas in the Early Nineteenth Century

Historical Studies in Asteroid Research

Cunningham, C.J.

2017, XIII, 477 p. 326 illus., 137 illus. in color.,

Hardcover

ISBN: 978-3-319-32846-1
