## Part I Models and Methods of Classical Scheduling

|          |   |    |
|----------|---|----|
| <b>1</b> | <b>Models and Concepts of Classical Scheduling</b>      | 3  |
| 1.1      | Classical Scheduling Models                             | 4  |
| 1.1.1    | Machine Environment                                     | 4  |
| 1.1.2    | Job Characteristics                                     | 5  |
| 1.1.3    | Optimality Criteria                                     | 6  |
| 1.2      | Three-Field Classification Scheme                       | 8  |
| 1.3      | Computational Complexity                                | 9  |
| 1.3.1    | Time Complexity of Algorithms                           | 9  |
| 1.3.2    | Hard and Easy Problems                                  | 11 |
| 1.3.3    | Implications to Scheduling                              | 13 |
| 1.3.4    | Approximation Algorithms                                | 15 |
|          | References  | 16 |
| <b>2</b> | <b>Pairwise Interchange Argument and Priority Rules</b> | 19 |
| 2.1      | Minimizing a Linear Form                                | 20 |
| 2.1.1    | Minimizing Total Completion Time on a Single Machine    | 23 |
| 2.1.2    | Minimizing the Sum of Products                          | 26 |
| 2.2      | Minimizing Total Weighted Completion Time               | 28 |
| 2.3      | Minimizing Total Completion Time on Parallel Machines   | 29 |
| 2.3.1    | Uniform Machines  | 30 |
| 2.3.2    | Identical Machines                                      | 33 |
| 2.4      | Bibliographic Notes                                     | 34 |
|          | References  | 36 |
| <b>3</b> | <b>Sequencing Under Precedence Constraints</b>          | 37 |
| 3.1      | Graphs, Posets, and Other Definitions                   | 37 |
| 3.1.1    | Reduction Graphs  | 38 |
| 3.1.2    | Series-Parallel Graphs                                  | 39 |

|  |   |            |
|--|---|------------|
| 3.2  | Priority-Generating Functions . . . . .   | 42         |
| 3.2.1  | Minimizing Total Weighted Completion Time . . . . .                                     | 43         |
| 3.2.2  | Minimizing a Linear Form . . . . .  | 44         |
| 3.2.3  | Minimizing Makespan Versus Total Completion<br>Time . . . . .                           | 45         |
| 3.3  | Minimizing Priority-Generating Functions Under<br>Series-Parallel Constraints . . . . . | 47         |
| 3.4  | Bibliographic Notes . . . . .   | 51         |

Scheduling with Time-Changing Effects and  
Rate-Modifying Activities

Strusevich, V.; Rustogi, K.

2017, XXV, 455 p. 14 illus., Hardcover

ISBN: 978-3-319-39572-2
