

Contents

1	Introduction	1
	Building Governance for the Oceans	4
	Rationale for a New Intergovernmental Organization	8
	Founding Elements of the Organization	12
	References	14
2	Constructing PICES	17
	The Many Facets of Annual Meetings	25
	Standing Committees	32
	The Four Scientific Committees of BIO, POC, FIS and MEQ	32
	Two Technical Committees of MONITOR and TCODE	35
	The Critical Importance of Long Term Monitoring	36
	Technical Committee on Data Exchange (TCODE)	38
	The PACIFICA Data Synthesis Project	40
	Working Groups as Building Blocks for Science	41
	The Challenge of Mariculture	46
	The Role of Study Groups, Sections and Advisory Panels	47
	Providing Additional Expertise Through Sections	48
	The Role of Advisory Panels	49
	Providing Different Kinds of Scientific Advice	52
	Unsolicited Advice: The North Pacific Ecosystem Status Report (NPESR) Series	53
	How Best to Produce Ecosystem Status Reports?	54
	Contributing to Ecosystem-Based Management (EBM)	61
	Solicited Advice: Formal Requests by Governments, and Special Projects	62
	Fisheries and Ecosystem Responses to Recent Regime Shifts (FERRRS)	62
	The Cohen Commission on Fraser River Salmon (2009)	65

Country Requests for Special Projects	66
Projects Supported by the Ministry of Agriculture, Forestry and Fisheries, Japan.	66
Project Supported by the Ministry of Environment, Japan.	69
The Many Roles of PICES Publications	71
References	74
3 Integrating International, National and Regional Science into Global Science.	77
Collaborating with Global Multilateral Organizations	85
The Food and Agriculture Organization (FAO)	85
The Intergovernmental Oceanographic Commission (IOC)	87
Joint Group of Experts on the Scientific Aspects of Marine Environmental Protection (GESAMP).	89
Regional Intergovernmental Organizations: ICES During a Century of Change.	90
Deepening Linkages with Regional Fisheries Commissions:	
The North Pacific Anadromous Fish Commission	96
Northwest Pacific Action Plan (NOWPAP).	99
The Scientific Committee on Oceanic Research (SCOR).	100
Joint Global Ocean Flux Study (JGOFS 1987–2003)	102
GLOBEC International Program (1999–2009).	104
Integrated Marine Biogeochemistry and Ecosystem Research (IMBER).	106
Ecosystem Studies of Sub-arctic Seas (ESSAS).	108
Surface Ocean—Lower Atmosphere Study (SOLAS)	109
Building Regional Support: The North Pacific Research Board (NPRB).	110
Linking Regional Expertise to Global Governance Efforts.	111
The United Nations World Ocean Assessment (WOA).	111
Building Capacity and Social Capital	113
Summer Schools and Courses	117
Internship Program.	118
Visiting Scientist Program.	118
References	119
4 Developing Unified Marine Climate Change Research	123
A Core Integrative Science Program.	123
The First Core Science Program of Climate Change and Carrying Capacity (CCCC 1995–2009).	124
Assessment of the CCCC Program.	136
Envisioning a Second Integrated Science Program	139
The Second Core Science Program: Forecasting and Understanding Trends, Uncertainty and Responses of North Pacific Ecosystems (FUTURE 2009–2019)	141
