

Contents

A General Introduction to Particle Deposition	1
Jean-Pierre Minier	
Using Holography and Particle Image Velocimetry to Study Particle Deposition, Re-suspension and Agglomeration	37
René van Hout	
Models of Turbulent Flows and Particle Dynamics	97
Jacek Pozorski	
Physics and Modelling of Particle Deposition and Resuspension in Wall-Bounded Turbulence.	151
Cristian Marchioli	
Surface Forces and Their Application to Particle Deposition and Resuspension	209
Christophe Henry	

Particles in Wall-Bounded Turbulent Flows: Deposition,
Re-Suspension and Agglomeration

Minier, J.-P.; Pozorski, J. (Eds.)

2017, VII, 261 p. 176 illus., 25 illus. in color., Hardcover

ISBN: 978-3-319-41566-6
