

Contents

1	Introduction	1
	José Luz Silveira	
2	Hydrogen Production Processes	5
	Lúcia Bollini Braga, Márcio Evaristo da Silva, Túlio Stefani Colombaroli, Celso Eduardo Tuna, Fernando Henrique Mayworm de Araujo, Lucas Fachini Vane, Daniel Travieso Pedroso, and José Luz Silveira	
3	Thermodynamic Analysis of Hydrogen Production Processes	77
	Lúcia Bollini Braga, Celso Eduardo Tuna, Fernando Henrique Mayworm de Araujo, Lucas Fachini Vane, Daniel Travieso Pedroso, and José Luz Silveira	
4	Economic Studies of Some Hydrogen Production Processes	109
	Lúcia Bollini Braga, Celso Eduardo Tuna, Fernando Henrique Mayworm de Araujo, Lucas Fachini Vane, Daniel Travieso Pedroso, and José Luz Silveira	
5	Ecological Efficiency of Some Hydrogen Production Processes	127
	Lúcia Bollini Braga, Celso Eduardo Tuna, Fernando Henrique Mayworm de Araujo, Lucas Fachini Vane, Daniel Travieso Pedroso, and José Luz Silveira	
6	Sustainability Assessment of Hydrogen Production Techniques in Brazil: A Multi-criteria Analysis	139
	Luis Carlos Félix Tapia, Rolando Zanzi Vigouroux, and José Luz Silveira	

7 Conclusions	175
José Luz Silveira	
Appendix A: Tables Showing Gibbs Free Energy as a Function of Temperature of Formation Reactions	177
Appendix B: Adaptation of Cardu and Baica's Methodology	181
Index	183

Sustainable Hydrogen Production Processes

Energy, Economic and Ecological Issues

Silveira, J.L. (Ed.)

2017, XIV, 185 p. 92 illus., 72 illus. in color., Hardcover

ISBN: 978-3-319-41614-4
