

Contents

Part I Quantitative and Qualitative Determinants of the Development of Transport Systems

Competition Tools in Passenger Transport in Urban Areas	3
Zofia Bryniarska	
The Method of Hierarchization of Public Transport Lines and Evaluation of Their Adaptation to the Users Needs	15
Ryszard Janecki and Grzegorz Karoń	
Qualitative and Temporal Determinants in Integrated Supply Chains	27
Maciej Mindur	
Structural Aspects of Airfield Runways with Concrete Pavements	39
Andrzej Więckowski and Alicja Sznurawa	
Determination of Congestion Levels Using Texture Analysis of Road Traffic Images	53
Teresa Pamuła	

Part II Optimisation of Transport Systems

Technologically Advanced and Responsible Travel Planning Assisted by GT Planner	65
Grzegorz Sierpiński	
Solutions for Agglomeration Railway Integration—Case Study of the Line Wieliczka—Krakow Airport	79
Aleksandra Ciaston-Ciulkin and Sabina Pulawska-Obiedowska	
Bimodal Technology Based Concept of Road and Rail Cargo Transport.	91
Leszek Mindur	

Cost and Implementation Cycle of Concrete Runways.	101
Andrzej Więckowski and Alicja Sznurawa	
Transport Network Parameterisation Using the GTAlg Tool	111
Ireneusz Celiński	
 Part III Safety Analysis in Advanced Transport Systems	
Analysis of the Relation Between Assessing Own as Well as Other People's Driving Skills and Causing Road Collisions and Accidents	127
Ewelina Sendek-Matysiak	
Assessment of the Safety of Microprocessor-Based Semi-automatic Block Signalling System	137
Zbigniew Łukasik, Tomasz Ciszewski, Jakub Młyńczak, Waldemar Nowakowski and Jerzy Wojciechowski	
The Choice of the Fire Ventilation System for a Short Road Tunnel	145
Aleksander Król and Małgorzata Król	
Physically Disabled Pedestrians—Road Users in Terms of Road Accidents	157
Piotr Czech	
 Part IV Advanced Systems of Traffic Engineering and Travel Models	
Impact of Different Lengths of Urban Road Segments on Speed-Volume Relationship.	169
Gundolf Jakob	
Moulding of Travelling Behaviour Patterns Entailing the Condition of Road Infrastructure	181
Marcin Staniek	
Development of the Transport Model for the Masovian Voivodeship	193
Tomasz Kulpa and Andrzej Szarata	
The Comparison of Models for Critical Headways Estimation at Roundabouts	205
Elżbieta Macioszek	
Author Index.	221

Contemporary Challenges of Transport Systems and
Traffic Engineering

13th Scientific and Technical Conference "Transport
Systems. Theory and Practice 2016" Katowice, Poland,
September 19-21, 2016 Selected Papers

Macioszek, E.; Sierpiński, G. (Eds.)

2017, XII, 221 p. 64 illus., 38 illus. in color., Softcover

ISBN: 978-3-319-43984-6
