

# Contents

<b>1</b>	<b>Thakuran Drainage Basin</b>	<b>1</b>
1.1	Tectonic Set up.	2
1.2	Geological Framework	2
1.3	The Thakuran Drainage Basin	3
1.4	Braiding of the River	5
1.5	Formation of Islands.	7
1.6	Summary	7
	References.	7
<b>2</b>	<b>Climate and Hydrography</b>	<b>9</b>
2.1	Wind, Temperature and Rainfall.	10
2.2	Tropical Cyclones.	11
2.3	Tides.	11
2.4	Tidal Flow Regime.	14
2.5	Summary	15
	References.	16
<b>3</b>	<b>Geomorphic Environments</b>	<b>17</b>
3.1	Flow Patterns	18
3.2	Geomorphic Environments	18
3.3	Geomorphic Divisions	18
3.3.1	Description of the Geomorphic Divisions	19
3.4	Sand-Body Geometry of the Geomorphic Zone	31
3.5	Summary	32
	References.	32
<b>4</b>	<b>Sediment Composition.</b>	<b>35</b>
4.1	Lithogenic and Biogenic Components	36
4.2	Source Rock of River Sediments	39
4.3	Summary	40
	References.	40

<b>5</b>	<b>Mudflats and Tidal Creek Sedimentation</b>	41
5.1	Physical Parameters of Muddy Sediments	42
5.2	Sedimentation Types on Mudflats	44
5.3	Sedimentation on a Tidal Creek	44
5.3.1	Mud Ridges	45
5.3.2	Mud Microdelta	45
5.3.3	Mud Pellets and Mud Lumps	46
5.3.4	Wood Clumps on Mudflats	47
5.4	Stratification in Tidal Creek Deposits	48
5.4.1	Epsilon Cross-Stratification (ECS)	48
5.4.2	Alternate Sand-Mud Sequence (Heterolithic Sequence)	48
5.4.3	Convolute Lamination	49
5.5	Summary	50
	References	50
<b>6</b>	<b>Sediment Texture</b>	53
6.1	Shape of the Cumulative Curves	54
6.1.1	<i>Type I</i> : Cumulative Curves Having Size Range Within 0.0–4.0 $\phi$ , i.e. Within Sand Sizes	54
6.1.2	<i>Type II</i> : Cumulative Curves Having Size Range Within 2.5–9.5 $\phi$ , i.e. Ranging from Fine-Sand to Clay Sizes	55
6.1.3	<i>Type III</i> : Cumulative Curves Having Size Range –1.0–9.0 $\phi$ , i.e. Ranging from Very Coarse-Sand to Clay Sizes	63
6.2	Inter-relationship Between Grain Size and Morphological Units	66
6.3	Classification of Sediment Types	66
6.4	Sediment-Trend Matrix of Grain-Size Relations	72
6.5	Sediment—Hydrodynamic Relation	73
6.6	A Bipartite Model of Grain-Size Distribution	74
6.7	Interrelationship of Grain-Size Parameters and River Distance	76
6.8	Environment Sensitiveness of Size Parameters	78
6.9	Summary	79
	References	80
<b>7</b>	<b>Sedimentary Structures</b>	83
7.1	Bedforms Characters	84
7.2	Sedimentary Structures on the Mid-Channel Bars	84
7.2.1	Megaripples	84
7.2.2	Sandwaves	87
7.2.3	Internal Physical Structures of the Mid-Channel Bars	89
7.2.4	Modification-Features Resultant from Unsteady Flow in Tidal Environment	95

7.2.5	Description of Small-Scale Bedforms . . . . .	98
7.2.6	Some Characteristics Ripple Types and Other Structures of Tidal Origin . . . . .	99
7.3	Sedimentary Structures of the Point Bars . . . . .	107
7.3.1	Description of Bedforms . . . . .	107
7.3.2	Description of Internal Structures . . . . .	108
7.4	Sedimentary Structures of the Swash Platform . . . . .	110
7.4.1	Description of Bedforms . . . . .	110
7.5	Sedimentary Structures of Wash-Over Flats . . . . .	113
7.5.1	Surface Features . . . . .	113
7.5.2	Internal Sedimentary Structures of the Wash-Over Flat. . . . .	114
7.6	Remarks on Channel Configuration and Channel-Fill. . . . .	118
7.7	Summary . . . . .	118
	References. . . . .	119
<b>8</b>	<b>Bioturbation Structures . . . . .</b>	<b>123</b>
8.1	Basis of Classification of Bioturbation Structures. . . . .	124
8.2	The Classification . . . . .	128
8.2.1	Surface Bioturbation Structures. . . . .	128
8.2.2	Internal Bioturbation Structure . . . . .	134
8.2.3	Dwelling Structures: Burrows and Tubes Made by Organisms in Which They Live or Use for Escape . . . . .	135
8.3	Summary . . . . .	139
	References. . . . .	139
<b>9</b>	<b>Mangroves Swamp and Tidal-Marsh Sedimentation . . . . .</b>	<b>141</b>
9.1	Geomorphological Features of the Mangroves and Marshes. . . . .	142
9.2	Mangrove Characteristics . . . . .	142
9.3	Tidal Sedimentation on Mangrove Swamps . . . . .	143
9.4	Tidal Marshes. . . . .	147
9.5	Intertidal Marsh Sedimentation. . . . .	149
9.6	Texture of the Marsh Sediments. . . . .	149
9.7	Physical and Biogenic Structures . . . . .	150
9.8	Summary . . . . .	151
	References. . . . .	151

Tidal Sedimentation of the Sunderban's Thakuran Basin

Das, G.K.

2017, XVII, 151 p. 77 illus., 38 illus. in color., Hardcover

ISBN: 978-3-319-44190-0
