

Contents

1	General Introduction	1
1.1	Introduction	1
1.2	VNA Architecture	3
1.3	VNA Measurements	4
1.3.1	Measurement Errors	4
1.3.2	Calibration Standards	5
1.3.3	Error Box Model	11
1.3.4	Calibration Techniques	13
1.4	Measurement Uncertainty	15
1.4.1	Uncertainty Components Classification	15
1.4.2	Representation of S-Parameter Uncertainty	15
	References	19
2	Waveguide Measurement Uncertainty	23
2.1	Introduction	23
2.2	Mathematical Model and Measurement Uncertainty Evaluation	23
2.3	Measurands and Measurement Setup	27
2.4	Dimensional Measurements	28
2.5	Measurement Results	30
2.6	Uncertainty Budget	31
2.7	Discussion	31
2.8	Conclusion	33
	References	36
3	VNA Calibration Comparison	37
3.1	Introduction	37
3.2	Calibration Techniques	38
3.3	Measurement Uncertainty Evaluation	39
3.4	Measurands and Measurement Setup	39
3.5	Dimensional Characterization	40
3.6	Measurement Results	40
3.7	Uncertainty Budget	43

3.8	Discussion	44
3.9	Conclusion	44
	References.	45
4	VNA Connection Repeatability Investigation	47
4.1	Introduction	47
4.2	Mathematical Formulation	48
4.3	Experimental Setup.	49
4.4	Measurement Results	49
4.4.1	Flush Short-Circuit Measurements.	50
4.4.2	Offset Short-Circuit Measurements	50
4.4.3	Near-Matched Termination Measurements	51
4.4.4	Mismatched Termination Measurements	51
4.5	Discussions.	53
4.6	Conclusion	54
	References.	54
5	VNA Verification Artefacts.	57
5.1	Introduction	57
5.2	Dimensional Tolerances and Flange Misalignment	58
5.3	Electromagnetic Simulations.	60
5.3.1	Electromagnetic Simulations for Waveguide Artefacts	61
5.3.2	Electromagnetic Simulations for Coaxial Artefact.	62
5.4	Uncertainty Estimation	63
5.5	Experimental Setup.	65
5.6	Results and Discussions	66
5.6.1	Waveguide Verification Standards.	66
5.6.2	Coaxial Verification Standard	71
5.7	Conclusion	73
	References.	75
	General Conclusions	77
	Index	79

Vector Network Analyzer (VNA) Measurements and
Uncertainty Assessment

Shoaib, N.

2017, XIV, 82 p. 52 illus. in color., Hardcover

ISBN: 978-3-319-44771-1
