

# Contents

## **Part I Current State of Students' Inadequacies, Conceptions and Fluency of Algebra in the US Colleges**

- 1 Algebra Underperformances at College Level:  
What Are the Consequences? . . . . . 3**  
Sepideh Stewart and Stacy Reeder
- 2 Examining the Role of Prior Experience  
in the Learning of Algebra . . . . . 19**  
Mercedes McGowen

## **Part II College Algebra in a Broader Context**

- 3 Long-Term Effects of Sense Making and Anxiety in Algebra . . . . . 43**  
David Tall
- 4 Misconceptions and Learning Algebra . . . . . 63**  
Julie L. Booth, Kelly M. McGinn, Christina Barbieri,  
and Laura K. Young
- 5 A Deep Understanding of Fractions Supports  
Student Success in Algebra . . . . . 79**  
Stacy Reeder

## **Part III Positive Approaches to the Teaching of Algebra**

- 6 Overcoming the Algebra Barrier: Being Particular  
About the General, and Generally Looking Beyond  
the Particular, in Homage to Mary Boole . . . . . 97**  
John Mason
- 7 Algebra as Part of an Integrated High School Curriculum . . . . . 119**  
James T. Fey and David A. Smith

<b>8 Teaching and Learning Middle School Algebra: Valuable Lessons from the History of Mathematics . . . . .</b>	<b>131</b>
Mala S. Nataraj and Mike Thomas	
<b>Part IV Proposed Future Developments</b>	
<b>9 Cognitive Neuroscience and Algebra: Challenging Some Traditional Beliefs . . . . .</b>	<b>157</b>
Carolyn Kieran	
<b>10 Rethinking Algebra: A Versatile Approach Integrating Digital Technology . . . . .</b>	<b>173</b>
Mike Thomas	
<b>Part V Teaching Higher Algebra</b>	
<b>11 Why Does Linear Algebra Have to Be So Abstract? . . . . .</b>	<b>205</b>
John Hannah	
<b>12 School Algebra to Linear Algebra: Advancing Through the Worlds of Mathematical Thinking . . . . .</b>	<b>219</b>
Sepideh Stewart	
<b>Index . . . . .</b>	<b>235</b>

And the Rest is Just Algebra

Stewart, S. (Ed.)
