

Contents

Part I

1	History of Hymenoptera Allergy	3
	James M. Quinn	
2	Entomological Aspects of Insect Sting Allergy	17
	Robert S. Jacobson	
3	Hymenoptera Venoms: Toxicity, Components, Stability, and Standardization	43
	Ellen L. Danneels, Matthias Van Vaerenbergh, and Dirk C. de Graaf	
4	Clinical Aspects of Hymenoptera Allergy: IgE Response, Stings, and Immunotherapy	71
	Kevin M. White	
5	Diagnostic In Vivo and In Vitro Methods in Insect Allergy	85
	Robert G. Hamilton	
6	Pathologic Findings in Hymenoptera Sting Fatalities	101
	Jessica B. Perkins and Anne B. Yates	
7	Treatment of Hymenoptera Reactions: Acute and Prophylactic	109
	David F. Graft	
8	Adverse Reactions to Skin Testing and Immunotherapy with Hymenoptera Venoms and Whole-Body Extracts	125
	Robbie Pesek and Richard F. Lockey	
9	Duration of Venom Immunotherapy	141
	David B.K. Golden	

Part II

10	Unique Aspects of Bee Allergy and Reactions	155
	William R. McKenna and Tyson C. Brown	
11	The Imported Fire Ant: The US Experience	189
	Mike Tankersley and Daniel Steigelman	
12	Mosquito Hypersensitivity: Clinical Updates.	203
	Renata J.M. Engler and Howard C. Crisp	
13	Reactions to Arthropod Bites.	231
	John C. Carlson	
14	Arthropods and Human Disease	247
	Michael O'Connell	

Part III

15	Behavior, Ecology, Natural History, and Distribution of Stinging Hymenoptera	271
	Justin O. Schmidt	
16	Insect Sting Allergy and Mast Cell Disease	285
	Patrizia Bonadonna, Roberta Zanotti, and Franziska Ruëff	
17	Insect Allergy: Unanswered Questions, a Postscript	307
	James M. Tracy	
	Index.	313
