Contents

1 Plasma Jet 1
1.1 Characteristics of Plasma Spraying 1
1.2 Temperature and Performance of Plasma Jet 4
1.3 Exhaust Velocity. 6
1.4 Plasma Gases 8
1.4.1 Dissociation, Ionization and Enthalpy of Plasma Gases. 9
1.5 Thermal Conductivity of Plasma. 11
1.6 Electric Conductivity of Plasma 11

2 Formation of Plasma Sprayed Coating 13
2.1 Powder Transport, Flow Trajectory and Velocity of Sprayed Particles 13
2.2 Mutual Influence of Molten Material with Plasma Jet and Ambient Atmosphere 15
2.3 Impingement of Flowing Particles onto the Backplate 17
2.4 Thermic Influence upon the Backplate and Sprayed Coating . . . 20
2.5 Physical and Chemical Changes of Material in Spraying 22

3 Basic Properties of Plasma Coatings 25
3.1 Structure 25
3.2 Density and Porosity. 26
3.3 Bonding, Internal Stress, Coating Thickness. 26
3.4 Strength, Hardness, Deformability 27
3.5 Thermal and Electric Conductivity 29

4 Adhesion of Plasma Sprayed Coatings to Basic Backplate. 31
4.1 Types of Bonding Forces 31
4.2 Theoretical Aspects of Optimal Adhesion Formation 32

4.3 Principal Factors Influencing Adhesion of Coating to Basic Surface . . . 33
4.3.1 Thickness of Coating . . . 33
4.3.2 Pretreatment of Basic Material Surface . . . 34
4.3.3 Parameters of Spraying Process . . . 36
4.4 Experimental Assessment of Adhesion of Plasma Sprayed Coatings to Basic Backplate . . . 36
4.4.1 Testing Methods of Adhesion Detection . . . 36
4.4.2 Adhesion Test According to DIN 50 160 Standard . . . 37
4.4.3 Adhesion Test According to DIN 50 161 Standard . . . 39
4.4.4 Adhesion Test by the Apex Stone Method . . . 40

5 Plasma Spraying Equipment . . . 43
5.1 Basic Scheme of Plasma Spraying Equipment . . . 43
5.2 Plasma Torches . . . 44

6 Thermal Spraying . . . 49
6.1 General Characteristics of Thermal Spraying . . . 50
6.2 Theoretical Bases of Thermal Spray Applications . . . 51
6.2.1 Adhesion of Thermal Sprayed Particles to the Basic Surface and Cohesion of Film Particles . . . 51
6.2.2 Methods of Regulation of Interaction Between the Sprayed Particle Material and the Basic Material . . . 53
6.3 Technology of Thermal Spraying . . . 54
6.3.1 Flame Spraying . . . 55
6.3.2 Electric Arc Spraying . . . 56

7 Adhesion Tests . . . 59
7.1 Theoretical Analysis . . . 59
7.2 Experimental Conditions . . . 63
7.2.1 Plasma Spraying . . . 64
7.2.2 Thermal Spraying . . . 73

8 Thermal Fatigue Tests . . . 79
8.1 Theoretical Analysis . . . 79
8.2 Experimental Conditions . . . 81

9 Roughness of Spray Coating Surface . . . 85

10 Corrosion Tests . . . 87

11 Assessment of Properties of Films on Cylindrical Testing Rods . . . 89

12 Operation Tests 91
12.1 Material 12 060 93
12.2 Material 15 230 94
12.3 Material 19 541 95

13 Conclusion 99
