

Contents

Part I Efficiency in Sustainable Supply Chain—Strategic Aspects

Sustainable Supply Chain in Forming Environmental Macro Responsibility	3
Yevhen Krykavskyy and Nataliia Mashchak	
The Transformation of Supply Chains in Closed-Loop Supply Chains	19
Roman Domański and Michał Adamczak	
Innovative Approaches to Improve Sustainability of Physical Distribution in Dutch Agrifood Supply Chains	31
Reinder Pieters, Paul van Beek, Hans-Heinrich Glöckner, Onno Omta and Stef Weijers	
Sustainability—Indispensable Part of the Logistics Development	53
Martyna Zdziarska	
Using DMAIC for Making Sustainable Supply Chain Efficient in a GRAI Environment	63
Paul Eric Dossou and Gilles Dedeban	
Ecological Aspects of the Implementation of Logistics Processes in E-commerce	87
Karolina Kolinska, Izabela Jeleń and Marta Cudziło	
Green Logistics as the Basis for Improving Environmental Efficiency of Transport	99
Marina A. Zhuravskaya	

Part II Efficiency in Sustainable Supply Chain—Operational Aspects

Virtual Reality Based Ecodesign	119
Justyna Trojanowska, Anna Karwasz, Jose M. Machado and Maria Leonilde R. Varela	
Using CAD 3D System in Ecodesign—Case Study	137
Anna Karwasz and Justyna Trojanowska	
The Impact of Eco-efficiency in Production on Availability of Machines and Equipment.	161
Adam Kolinski	
The Analysis of Economic and Environmental Effects of Cooperation Between Enterprises and in the Provision of Transport—A Case Study	179
Marta Cudzilo and Jakub Sobotka	
Efficient Demand Management in Retailing Through Category Management	195
Davor Dujak, Zdenko Segetlija and Josip Mesarić	

Efficiency in Sustainable Supply Chain

Golinska, P.; Kolinski, A. (Eds.)

2017, VIII, 216 p. 72 illus., 34 illus. in color., Hardcover
