

Contents

1	Addressing the Transformational Needs of Telecommunications Operators	1
1.1	What Is the Structure of This Book?	2
1.2	What Are the Major Findings of This Book?	3
1.3	Which Sources Were Used?	9
1.4	Who Could Benefit from This Book?	11
1.5	How Is the Content Used in Real-Life Projects?	12
	References	13
2	Understanding Today's Telecommunications Industry	17
2.1	Telecommunications Market	20
2.1.1	Price Decrease and Cost Pressure	21
2.1.2	Emergence of Over-the-Top (OTT) Providers	24
2.1.3	Growth Potential in Vertical Markets	27
2.1.4	A New Role for Regulators	35
2.2	Telecommunications Products and Services	39
2.2.1	Interrelation Between Commercial Products and Technical Services	39
2.2.2	Customer Experience Management	42
2.3	Telecommunications Value Chain	44
2.3.1	Erosion of the Traditional Telecommunications Value Chain	45
2.3.2	The Operator Partnering Imperative	47
	References	50
3	Understanding the Methodical Principles	55
3.1	Fundamentals of Information Systems Modeling	57
3.2	Enterprise Architecture	60
3.2.1	Introduction to Enterprise Architecture	61
3.2.2	Enterprise Architecture Frameworks	63
3.2.3	Enterprise Architecture Management	67
3.2.4	The Open Group Architecture Framework	68

3.3	Reference Modeling	70
3.3.1	Introduction to Reference Modeling	71
3.3.2	Types of Reference Models.	72
3.3.3	Development and Usage of Reference Models	74
3.4	Reference Models in the Telecommunications Industry	78
3.4.1	TM Forum Business Process Framework (eTOM)	80
3.4.2	TM Forum Information Framework (SID).	85
3.4.3	TM Forum Application Framework (TAM)	88
3.4.4	IT Infrastructure Library (ITIL).	91
3.5	Introduction to Enterprise Transformation.	92
	References.	95
4	Designing the Architecture Solution.	103
4.1	Overview of Reference Architecture.	105
4.1.1	Layers of Reference Architecture	107
4.1.2	Defining Architecture Domains.	115
4.1.3	Defining Reference Process Flows	119
4.2	Structuring the Architecture Solution	123
4.2.1	Structuring the Process Layer	125
4.2.2	Structuring the Organizational Mapping	129
4.2.3	Structuring the Data Layer	134
4.2.4	Structuring the Application Layer.	137
4.3	Detailing the Customer-Centric Domain	141
4.3.1	Reference Process Flows of the Customer-Centric Domain	141
4.3.2	Organizational Mapping of the Customer-Centric Domain	145
4.3.3	Data Layer of the Customer-Centric Domain	153
4.3.4	Application Layer of the Customer-Centric Domain	155
4.3.5	Summary of the Customer-Centric Domain.	160
4.4	Detailing the Technology Domain	161
4.4.1	Reference Process Flows of the Technology Domain	162
4.4.2	Organizational Mapping of the Technology Domain.	166
4.4.3	Data Layer of the Technology Domain.	174
4.4.4	Application Layer of the Technology Domain	178
4.4.5	Summary of the Technology Domain	182
4.5	Detailing the Product Domain	184
4.5.1	Reference Process Flows of the Product Domain	184
4.5.2	Organizational Mapping of the Product Domain.	186
4.5.3	Data Layer of the Product Domain	190
4.5.4	Application Layer of the Product Domain.	193
4.5.5	Summary of the Product Domain	195

4.6	Detailing the Customer Domain and the Support Domain	197
4.6.1	Reference Process Flows of the Customer Domain	197
4.6.2	Reference Process Flows of the Support Domain	198
	References.	199
5	Planning and Implementing the Architecture Solution.	203
5.1	Architecture Solution Map	205
5.1.1	Map Element 1: Architecture Diagnostics	209
5.1.2	Map Element 2: Strategic Alignment	212
5.1.3	Map Element 3: Architecture Framework	214
5.1.4	Map Element 4: Architecture Ownership	216
5.1.5	Map Element 5: Architecture Design	218
5.1.6	Map Element 6: Training and Awareness	220
5.1.7	Map Element 7: Change Management	222
5.1.8	Map Element 8: Architecture Implementation	223
5.2	Transformation Types and Organizational Responsibility	226
5.3	Transformation Project Examples	231
5.4	Detailed Example Cases	238
5.4.1	Case Study 1—Introduction of an OSS (Customer Orientation)	238
5.4.2	Case Study 2—Introduction of an OSS (NGN-Based)	241
5.4.3	Case Study 3—Introduction of a CRM System.	243
5.4.4	Case Study 4—Introduction of Process Architecture.	245
	References.	247
Index	249

Reference Architecture for the Telecommunications
Industry

Transformation of Strategy, Organization, Processes,
Data, and Applications

Czarnecki, C.; Dietze, C.

2017, XXII, 253 p. 153 illus., Hardcover

ISBN: 978-3-319-46755-9
