
Contents

Part VII Gram Positive Bacterial Drug Resistance: Clinical

49	Resistance in <i>Streptococcus pneumoniae</i>	777
	Lesley McGee and Keith P. Klugman	
50	Antibiotic Resistance of Non-pneumococcal Streptococci and Its Clinical Impact	791
	Nainee Desai, Judith Steenbergen, and David E. Katz	
51	Enterococcal Infections in Adults	811
	Katherine Reyes, Marcus Zervos, and Jisha John	
52	Antimicrobial Resistance in <i>Staphylococci aureus</i> : Mechanisms of Resistance and Clinical Significance	819
	Donald P. Levine and Jisha John	
53	Resistance in Aerobic Gram-Positive <i>Bacilli</i>	827
	David J. Weber, Melissa B. Miller, and William A. Rutala	

Part VIII Gram Negative Bacterial Drug Resistance: Clinical

54	Antibiotic Resistance in <i>Neisseria</i>	843
	Margaret C. Bash and Kathryn A. Matthias	
55	Mechanisms of Resistance in <i>Haemophilus influenzae</i> and <i>Moraxella catarrhalis</i>	867
	Michael R. Jacobs	
56	Enterobacteriaceae	889
	David L. Paterson and Yohei Doi	
57	<i>Pseudomonas</i>	899
	Kamilia Abdelraouf and Vincent H. Tam	
58	<i>Acinetobacter baumannii</i> and <i>Acinetobacter</i> spp.	923
	Federico Perez and Robert A. Bonomo	
59	Antimicrobial Resistance in <i>Stenotrophomonas maltophilia</i> : Mechanisms and Clinical Implications	937
	Xian-Zhi Li and Jennifer Li	
60	Antimicrobial Resistance of <i>Shigella</i> spp., Typhoid <i>Salmonella</i> , and Non-typhoid <i>Salmonella</i>	959
	Herbert L. DuPont and Jean M. Whichard	
61	Antimicrobial Resistance in <i>Vibrio</i>	969
	Michael L. Bennish, Wasif A Khan, and Sabeena Ahmed	

62	Antimicrobial Resistance in <i>Helicobacter</i> and <i>Campylobacter</i>	991
	Patrick F. McDermott and Francis Mégraud	
63	Antimicrobial Resistance of Anaerobic Bacteria	1007
	Itzhak Brook	
64	Mycobacteria: Tuberculosis	1041
	Akos Somoskovi and Max Salfinger	
65	Drug Resistance of Non-tuberculous Mycobacteria	1061
	Kathleen L. Horan and Gerard A. Cangelosi	

Part IX Fungal Drug Resistance: Clinical

66	The Role of Resistance in <i>Candida</i> Infections: Epidemiology and Treatment	1075
	Jack D. Sobel and R.A. Akins	
67	Antifungal Drug Resistance in <i>Aspergillus</i>	1099
	P.H. Chandrasekar and Elias K. Manavathu	
68	Drug Resistance in Cryptococcosis	1119
	Kimberly E. Hanson, Jelena Catania, Barbara D. Alexander, and John R. Perfect	
69	Antifungal Therapy for Histoplasmosis: Focus on Susceptibility, Resistance, and Effectiveness in Humans and Experimental Infection	1141
	L. Joseph Wheat	
70	Drug Resistance in <i>Pneumocystis jirovecii</i>	1147
	Jannik Helweg-Larsen, Thomas Benfield, Joseph Kovacs, and Henry Masur	

Part X Viral Drug Resistance: Clinical

71	Antiviral Resistance in Influenza Viruses: Clinical and Epidemiological Aspects	1165
	Erhard van der Vries and Michael G. Ison	
72	Herpesvirus Resistance to Antiviral Drugs	1185
	Jocelyne Piret and Guy Boivin	
73	Clinical Implications of HIV-1 Drug Resistance	1213
	Douglas L. Mayers and John D. Baxter	
74	Hepatitis B Virus Drug Resistance	1227
	Apostolos Beloukas and Anna Maria Geretti	

Part XI Parasitic Drug Resistance: Clinical

75	Antimalarial Drug Resistance: Clinical Perspectives	1245
	Bruno Pradines	
76	Diagnosis and Treatment of Metronidazole-Resistant <i>Trichomonas vaginalis</i> Infection	1277
	Jeffrey D. Smith, Sarah L. Cudmore, and Gary E. Garber	
77	Drug Resistance in Leishmaniasis	1293
	Shyam Sundar and Jaya Chakravarty	

78 Occurrence, Measurement and Clinical Perspectives of Drug Resistance in Important Parasitic Helminths of Livestock.....	1305
R.G. Woodgate, A.J. Cornell, and N.C. Sangster	

Part XII Measurements of Drug Resistance

79 In Vitro Performance and Analysis of Combination Anti-infective Evaluations	1329
Robert W. Buckheit Jr. and R. Dwayne Lunsford	
80 Antimicrobial Susceptibility Testing Methods for Bacterial Pathogens	1347
Fred C. Tenover	
81 Drug Resistance Assays for <i>Mycobacterium tuberculosis</i>.....	1359
Sebastian G. Kurz and Max Salfinger	
82 Fungal Drug Resistance Assays	1367
Sevtap Arikan-Akdagli and John H. Rex	
83 Viral Phenotypic Resistance Assays	1389
Jacqueline D. Reeves and Neil T. Parkin	
84 Drug Resistance Assays for Parasitic Diseases	1409
Danielle Légaré and Marc Ouellette	
85 Bacterial Genotypic Drug Resistance Assays	1465
A. Huletsky and Michel G. Bergeron	
86 Genotypic Assays for Monitoring Drug Resistance in HIV-1 Infection and for Other Chronic Viral Diseases	1501
Ying-Shan Han and Mark A. Wainberg	

Part XIII Public Health Issues of Drug Resistance

87 Antimicrobial Resistance: An International Public Health Problem.....	1519
Joseph D. Lutgring, Carlos A. Diaz Granados, and John E. McGowan Jr.	
88 Hospital Infection Control: Considerations for the Management and Control of Drug-Resistant Organisms	1529
Summer Donovan and Gonzalo M.L. Bearman	
89 Controlling the Spread of Resistant Pathogens in the Intensive Care Unit.....	1551
Tara N. Palmore and David K. Henderson	
90 Implications of Antibiotic Resistance in Potential Agents of Bioterrorism	1565
Linda M. Weigel and Stephen A. Morse	
91 Internet Resources on Antimicrobial Resistance	1593
Matthew E. Falagas and Kyriakos K. Trigkidis	
Index.....	1599

Antimicrobial Drug Resistance

Clinical and Epidemiological Aspects, Volume 2

Mayers, D.L.; Sobel, J.D.; Ouellette, M.; Kaye, K.S.;

Marchaim, D. (Eds.)

2017, XXI, 855 p. 61 illus., 32 illus. in color., Hardcover

ISBN: 978-3-319-47264-5
