1	Insecticides in Indian Food Products	1
1.1	Introduction	2
1.2	Chemistry of Insecticides	3
1.2.1	Definitions	3
1.2.2	Chemical Structures of Insecticides	4
1.3	Toxicity of Selected Insecticides	10
1.4	Limits of Insecticides in Indian Food	10
1.5	Consequences for Food Business Operators	11
	References	11
2	Aflatoxins in Indian Food Products	13
2.1	Introduction	14
2.2	Chemistry of Aflatoxins	15
2.2.1	The Aflatoxin/Foodborne Diseases Correlation	15
2.2.2	Types of Aflatoxins	16
2.2.3	Chemical Structure of Aflatoxins	16
2.2.4	Physiological Actions of Aflatoxins	18
2.3	Toxicity of Aflatoxins	19
2.4	Placement of Aflatoxins in Food Safety and Standards Regulations 2011	20
2.4.1	Limits of Aflatoxins in Indian Food Commodities	20
2.4.2	Chemical Structures of Crop Contaminants and Naturally Occurring Toxins Other Than Aflatoxins	20
2.5	Comparison of Aflatoxin Limits in Indian Food Law with EU Standards	21
2.6	Indian Market Surveys for Aflatoxin Contents in Commodities	22
2.7	Consequences for Food Business Operators	22
	References	23

3 Botanical Ingredients and Herbs in India. Foods or Drugs?	25
3.1 Introduction	25
3.2 Toxin Load Considerations in Botanical Food Ingredients, Herbs and Spices	26
3.3 Chemistry of Ingredient-Specific Intoxicants and Skin Allergens	27
3.3.1 Limonene	28
3.3.2 Phellandrene	28
3.3.3 Geraniol	28
3.3.4 Citronellol	29
3.3.5 Borneol	29
3.3.6 Citral	29
3.3.7 Safrole	29
3.4 Cure Aspects of Herbs and Spices	30
3.4.1 General Overview	30
3.4.2 Herbs and Spices Correlations with Tastes in the Ancient Medicine	31
3.5 Precautionary Measures for Consumers	32
References.	34
4 Organic Foods and Farming Practices in India	35
4.1 Introduction	36
4.2 Ancient Indian Scenario of Foods and Farming Practices.	38
4.2.1 Vruksh Ayurveda and Agriculture.	39
4.3 Soil Conservation Aspects of Food Quality and Crop Yield.	39
4.3.1 Nitrogen Enrichment	40
4.3.2 Mineral Content Enrichment	40
4.3.3 Organic Matter Stability and Surface Enlargement	41
4.4 India Towards Intensive Industrial and Integrated Farming Practices	41
4.5 Mineral Nutrients Deficiencies in Indian Foods	44
4.5.1 Mineral-Deficient Foods—The Indian Scenario.	44
4.6 Concept of Organic Farming	45
4.6.1 Definition of Organic Farming	46
4.6.2 Indian Programme for Organic Production	47
4.6.3 SWOT Scenario for Food Quality Assurance and Organic Certification in India.	47
4.7 Indian Organic Products Developing in Limited Scope for Organic Farming.	50
4.8 Organic Products Development in India	50
4.9 Indian Food: The Safety Concern.	51
References.	52

5 Pesticides Detection and Detrimental Chemicals in Indian Farming. Reasons for EU Border Rejections	55
5.1 Introduction	56
5.2 Industrialisation and Release of Detrimental Chemicals into the Environment	57
5.3 Ethics Regarding Protection of Biosphere from Detrimental Chemicals. Anti-pesticide Movement and Integral Humanism	58
5.4 Effects of Toxic Metals and Other Detrimental Chemicals on Environment, Biodiversity, and Public Health.	59
5.5 Detection of Detrimental Chemicals	60
5.5.1 Dissolved Oxygen.	60
5.5.2 Pathogens	61
5.5.3 Heavy Toxic Metals in Soils and Water	61
5.5.4 Pesticides in Agricultural Effluents	62
5.6 India Towards Reduction of Detrimental Chemicals in Farming	62
5.7 Reasons for EU Borders Rejections	63
5.7.1 Salmonella Detection in Indian Foods at EU Borders	63
5.7.2 Despite Following Organic Farming, Pesticides in Indian Foods Seldom Detected at EU Borders	63
5.7.3 Aflatoxins in Indian Chilli. The Situation at EU Borders.	64
5.8 Land Reforms in India Are Essential	64
