

Contents

1	Introduction and Overview	1
1.1	Control Systems with Communication Networks (NCSs)	1
1.2	Introduction to Receding Horizon Control (RHC)	4
1.3	Overview	6
1.3.1	RHC-based Control of NCSs	6
1.3.2	Distributed RHC of Large-Scale Systems	8
1.4	Motivation of the Book	11
1.5	Outline of This Book	12
1.6	Note and Summary	13
	References	13
2	RHC of Networked Nonlinear Systems with Two-Channel Packet Dropouts	19
2.1	Introduction	19
2.2	Preliminary Results and Modeling	21
2.2.1	Regional ISpS	22
2.2.2	Network Model	24
2.2.3	Buffer Model	25
2.3	Predictive Networked Controller Design	25
2.3.1	Constrained Optimization Problem	25
2.3.2	Control Packet Generation	26
2.3.3	Packet Transmission and Compensation Strategy Design	27
2.3.4	Explicit Control Law and Closed-Loop Model	28
2.4	Stability Analysis	29
2.5	Simulation	35
2.6	Note and Summary	39
	References	39

3	Min-Max RHC of Nonlinear NCSs with Delays and Packet Dropouts	41
3.1	Introduction	41
3.2	Problem Formulation and Preliminaries	42
3.2.1	Problem Formulation	42
3.2.2	Preliminary Results	44
3.3	Networked Controller Design	45
3.3.1	Control System Structure	45
3.3.2	Min-Max RHC-Based Control Packet Design	47
3.3.3	Compensation Strategy	49
3.4	Stability Analysis	50
3.5	Simulation Example	58
3.6	Note and Summary	63
	References	63
4	Output Feedback RHC of NCSs with Intermittent Measurements	65
4.1	Introduction	65
4.2	Problem Formulation	67
4.3	Observer Design and Estimation Error Analysis	68
4.3.1	Observer Design	68
4.3.2	Bounds of Estimation Error	69
4.4	Robust Output Feedback RHC Design	70
4.4.1	Nominal State Feedback RHC	70
4.4.2	Constraints Tightening	71
4.4.3	Robust Output Feedback RHC Algorithm	75
4.5	Feasibility and Stability Analysis	75
4.5.1	Feasibility Analysis	76
4.5.2	Stability Analysis	77
4.6	Simulations and Comparison Studies	79
4.6.1	Example 1	79
4.6.2	Example 2	84
4.7	Note and Summary	86
	References	87
5	Robust Distributed RHC of Constrained Nonlinear Systems	89
5.1	Introduction	89
5.1.1	Background and Motivation	89
5.1.2	Main Contents	91
5.1.3	Organization and Notations	91
5.2	Problem Formulation	92
5.3	Robust Distributed RHC	94
5.3.1	Setup of Robust Distributed RHC	94
5.3.2	Robust Distributed RHC Algorithm	97

5.4	Feasibility Analysis	100
5.4.1	Initial Feasibility and Feasible Control Candidate.	100
5.4.2	Feasibility of the Terminal Constraint.	101
5.4.3	Feasibility of the Robust Dual-Mode Distributed RHC . . .	103
5.5	Stability Analysis.	106
5.6	Simulation Studies	113
5.7	Note and Summary	116
	References	118
6	Distributed RHC of Nonlinear Systems	
	with Communication Delays	121
6.1	Introduction.	121
6.2	Problem Formulation and Preliminaries.	122
6.3	Distributed RHC with Communication Delays	124
6.4	Analysis	127
6.4.1	Feasibility Analysis	127
6.4.2	Stability Analysis and Delay Bounds	129
6.5	Simulation.	132
6.5.1	System Setup	132
6.5.2	Simulation Results	135
6.6	Note and Summary	135
	References	136
7	Distributed RHC of Nonlinear Systems: Handling Delays	
	and Disturbances	137
7.1	Introduction.	137
7.2	Problem Statement and Preliminaries	138
7.3	Robust Dual-Mode Distributed RHC with Delays.	140
7.3.1	Communication Delays and Optimization Problem.	140
7.3.2	Dual-Mode Distributed RHC Strategy.	142
7.4	Feasibility Analysis	143
7.4.1	Feasible Control Trajectory and Initial Feasibility.	143
7.4.2	Auxiliary Results	144
7.4.3	Delay Bound for Guaranteeing Feasibility.	148
7.5	Stability Analysis.	151
7.6	Simulation Studies	155
7.6.1	System Model	155
7.6.2	Theoretical Bounds of Parameters	155
7.6.3	Simulation Results	156
7.7	Note and Summary	156
7.8	Appendix	158
7.8.1	Proof of Lemma 7.6.	158
7.8.2	Proof of Theorem 7.3.	160
	References	162

8	Event-Triggered Robust RHC of Continuous-Time Nonlinear Systems	163
8.1	Introduction.	163
8.2	System Description.	165
8.3	Event-Triggered RHC Strategy	166
8.3.1	Optimization Problem.	166
8.3.2	Event-Triggered Strategy	167
8.3.3	Event-Triggered Robust RHC Algorithm.	168
8.4	Analysis	169
8.4.1	Feasibility Analysis	169
8.4.2	Stability Analysis.	170
8.5	Technical Proof	171
8.5.1	Proof of Theorem 8.2.	172
8.5.2	Proof of Theorem 8.3.	174
8.6	Simulation.	176
8.6.1	Simulation System and Parameters Setup	176
8.6.2	Comparison Study and Simulation Results	177
8.7	Note and Summary	179
	References	179
	Index	183

Robust Receding Horizon Control for Networked and
Distributed Nonlinear Systems

Li, H.; Shi, Y.

2017, XIII, 184 p. 44 illus., 38 illus. in color., Hardcover

ISBN: 978-3-319-48289-7
