

Contents

Retrotransposons and the Mammalian Germline.....	1
Ian R. Adams	
L1 Regulation in Mouse and Human Germ Cells.....	29
Simon J. Newkirk and Wenfeng An	
Retrotransposon Contribution to Genomic Plasticity	63
Tara T. Doucet-O’Hare and Haig H. Kazazian Jr.	
The Mobilisation of Processed Transcripts in Germline and Somatic Tissues	95
Adam D. Ewing	
Neuronal Genome Plasticity: Retrotransposons, Environment and Disease.....	107
Marie-Jeanne H.C. Kempen, Gabriela O. Bodea, and Geoffrey J. Faulkner	
Activity of Retrotransposons in Stem Cells and Differentiated Cells	127
Angela Macia, Leon Tejwani, Pinar Mesci, Alysson Muotri, and Jose L. Garcia-Perez	
Environment, Cellular Signaling, and L1 Activity.....	157
Catherine M. Ade, Geraldine Servant, Maria E. Morales, and Astrid M. Roy-Engel	
Retrotransposon-Derived Regulatory Regions and Transcripts in Stemness	195
Zhaohui Su and Guillaume Bourque	
Roles of Endogenous Retrovirus-Encoded Syncytins in Human Placentation	215
Caroline Toudic, Xavier Elisseeff, Adjimon Gaten Lokossou, and Benoit Barbeau	

Alu-Alu Recombinations in Genetic Diseases..... 239
Maria E. Morales, Geraldine Servant, Catherine M. Ade,
and Prescott Deininger

Retrotransposon-Driven Transcription and Cancer..... 259
Cristina Tufarelli and Richard M. Badge

LINE-1 Retrotransposons as Neoplastic Biomarkers..... 275
Nemanja Rodic

Contribution of Retrotransposable Elements to Aging 297
Jill A. Kreiling, Brian C. Jones, Jason G. Wood, Marco De Cecco,
Steven W. Criscione, Nicola Neretti, Stephen L. Helfand,
and John M. Sedivy

Index..... 323

Human Retrotransposons in Health and Disease

Cristofari, G. (Ed.)

2017, X, 330 p. 34 illus., 28 illus. in color., Hardcover

ISBN: 978-3-319-48343-6
