

Contents

1	Introduction	1
1.1	Research Objectives	3
1.2	Research Questions	3
1.3	Contribution to the Body of Knowledge	4
1.4	Aggregation: Research Questions and Knowledge Gaps	4
2	Industry Background	5
2.1	Introduction	5
2.2	Germany and its Automotive Industry	5
2.3	Germany's Automotive Aftermarket	7
2.4	Value of Automotive Repair in Germany	9
2.5	Vehicle Diagnosis and European Regulations	11
2.6	Offline-Knowledge Online: The Automotive Mechanic's Asset	12
2.7	Social Media and Knowledge	13
2.8	Social Media for Repair-Knowledge Management	14
2.9	Chapter Conclusion	15
3	Literature Review	17
3.1	Chapter Objectives	17
3.2	Literature Review Design	18
3.2.1	Social Media	19
3.2.2	Web 2.0	20
3.2.3	Defining User-Generated Content	33
3.2.4	Social Media in Automotive Repair	34
3.2.5	Defining Virtual Community	36
3.3	Knowledge Management	37
3.4	Concept of Knowledge and Its Sharing	38
3.4.1	Types of Knowledge	39
3.4.2	Tacit and Explicit Knowledge	40
3.4.3	Collective Knowledge by Relationships	42

3.5	Social Capital and Community	43
3.5.1	Sociotechnical Capital	46
3.5.2	Norm of Reciprocity	47
3.5.3	Trust	49
3.6	Technology Acceptance Research	52
3.6.1	Social Cognitive Theory (SCT)	53
3.6.2	Criticism of SCT	54
3.6.3	Theory of Interpersonal Behaviour (TIB)	55
3.6.4	Theory of Reasoned Action (TRA)	56
3.6.5	Criticism of TRA	58
3.6.6	Technology Acceptance Model (TAM)	58
3.6.7	Criticism of TAM	62
3.6.8	Theory of Planned Behaviour (TPB)	62
3.6.9	Criticism of TPB	64
3.7	Knowledge Sharing in the Context of Theory	65
3.7.1	Knowledge-Sharing Predictors in Organizations	66
3.7.2	Knowledge Sharing in Social Media	70
3.7.3	Knowledge Sharing in Virtual Social Communities	71
3.7.4	Current Trends in Social Media Acceptance Studies	74
3.8	Main Findings and Implications of Reviewed Studies	79
3.9	Implications from the Literature Review	79
3.10	Chapter Conclusion	83
4	Research Approach	87
4.1	Chapter Objectives	87
4.2	Research Paradigm: Considering Epistemology, Ontology, and Methodology	88
4.3	The Major Philosophical Research Paradigms in Social Inquiry	89
4.4	Justification of Research Paradigm	92
4.5	Theoretical Perspective of This Research	94
4.6	Quantitative Research in Social Science	94
4.7	Qualitative Research in Social Science	96
4.8	Mixed-Methods Approaches in Social Science	97
4.9	Defining a Research Design	99
4.10	Data Collection and Sampling	101
4.11	Chapter Conclusion	101
5	Qualitative Research: Participant Observation	105
5.1	Chapter Objectives	105
5.2	Observation Types: Classification	106
5.3	Decision on Observation Type: Participant Observation	106
5.3.1	History of Participant Observation	107
5.3.2	Ethnomethodology and Phenomenology	109
5.3.3	Outcome Data of Participant Observation	110

5.3.4	Observation	111
5.3.5	Participation	112
5.3.6	Data Collection and Sample Size	113
5.4	Motivators for Knowledge Sharing	114
5.5	Development of Checklist for Background Factors	115
5.6	Definition of Sample Size	116
5.7	Time Frame	116
5.8	Scientific Objectivity	117
5.9	Observation Participants and the Automotive Workshop Ecosystem	117
5.10	Location and Workshop Concepts	118
5.11	Participant Observation Analysis	121
5.12	Results of Participant Observation: Hierarchy in the Workshops	122
5.13	Results of Participant Observation: Factors for Knowledge Sharing	125
5.14	Observation Conclusion	135
5.15	Chapter Conclusion	137
6	Qualitative Research: Semi-structured Expert Interview	141
6.1	Chapter Objectives	141
6.2	Interview Types	142
6.3	Decision on Interview Type	143
6.4	Interview Design and Target Audience	145
6.5	Development of Interviewer Guide	145
6.6	Ethics	146
6.7	Development of Interview Questions	147
6.8	Defining a Recording Concept	150
6.9	Defining an Interview Sample Size	150
6.10	Interview Sample	151
6.11	Transcription	152
6.12	Qualitative Data Analysis	152
6.13	Content Analysis of the Interview Transcripts	154
6.14	Summary of the Results: Interpretation of the Influences on KS	161
6.14.1	Extrinsic and Intrinsic Motivators as Predictors for INT	163
6.14.2	Social Community Factors as Predictors for INT	165
6.14.3	Trust and Expert Knowledge as Predictors of INT	166
6.14.4	Perceived Behavioural Control as Predictor of INT	167
6.14.5	Barriers as Negative Predictors	167
6.15	Quality Criteria of Qualitative Research	168
6.15.1	Confirmability	168
6.15.2	Transferability and Credibility	168

6.15.3	Specific Quality Criteria	168
6.15.4	Dependability and Inter coder Reliability	169
6.16	Implications from Qualitative Research	170
6.17	Visualization of Results	171
6.18	Comparison of Results with Previous Empirical Studies.	171
6.19	Integrating Behavioural Models	175
6.20	Preliminary Hypothesis of Qualitative Research	175
6.20.1	Extrinsic Motivators	176
6.20.2	Intrinsic Motivators	177
6.20.3	Social Community Factors.	178
6.20.4	Perceived Behavioural Control	179
6.20.5	Trust	180
6.20.6	Expert Competence	180
6.21	Chapter Conclusion	181
7	Quantitative Research Approach	183
7.1	Chapter Objectives	183
7.2	Survey Methods	184
7.3	Questionnaire	185
7.4	Questionnaire Design	186
7.4.1	Instrument and Scale Development	186
7.4.2	The Constructs	188
7.4.3	Measuring Scales.	193
7.5	Constructing the Questionnaire.	194
7.6	Pilot Study	195
7.6.1	Sample Definition and Sampling Approach.	196
7.6.2	Developing a Cover Letter	196
7.6.3	Incentives for Participation	196
7.6.4	Contacting Participants	197
7.6.5	Sampling Bias	198
7.6.6	Administration of the Questionnaire	198
7.6.7	Descriptive Analysis of the Sample Population	199
7.6.8	Statistical Analysis: Explorative Factor Analysis.	204
7.6.9	Outcome of Factor Analysis and Derivation for Final Survey.	205
7.6.10	Conclusion	212
7.7	Major Study	213
7.7.1	The Hypotheses.	213
7.7.2	Adjustments of the Questionnaire: Learning from the Pilot Study	216
7.7.3	Sample Definition and Sampling Approach.	217
7.7.4	Developing a Cover Letter	218
7.7.5	Incentives for Participation	218
7.7.6	Contacting Participants	220
7.7.7	Administration of the Survey.	221

7.7.8	Descriptive Analysis	221
7.7.9	Factor Analysis	228
7.7.10	Outcome of Factor Analysis	230
7.7.11	Reliability Analysis of the Factors.	232
7.7.12	Outcome of the Factor Analysis	234
7.8	Regression Analysis	235
7.8.1	Factor Scores for Regression Analyses	235
7.8.2	Ordinal Regression	238
7.8.3	Linear Regression Analysis	248
7.8.4	Comparison of Ordinal and Linear Regression Model Results.	251
7.9	Investigating Group Differences	251
7.9.1	Years of Professional Experience	254
7.10	Chapter Conclusion	256
8	Conclusion	259
8.1	Chapter Objectives	259
8.2	Justification for Sample	259
8.2.1	Age and Professional Experience	260
8.2.2	Years of Professional Experience	261
8.2.3	Location of Workshop.	262
8.2.4	Professional Job Description	262
8.2.5	Internet Use in the Workshop and the Target Audience	263
8.3	Results: Predictors of Social Media Acceptance	265
8.3.1	Readiness to Help	265
8.3.2	Web-Usage Self-efficacy	266
8.3.3	Social Network Ties	267
8.3.4	Descriptive Norms.	267
8.3.5	Attitude	268
8.4	Reassessing the Hypotheses	268
8.4.1	Omitted Predictors.	269
8.4.2	Summary of Main Findings.	270
8.5	Final Model for Social Media Acceptance	272
8.6	Chapter Conclusion	273
9	Discussion	275
9.1	Chapter Objectives	275
9.2	The Model in the Context of the Recent Research	275
9.3	Cross-cultural View	278
9.4	Recommendations Proposed on the Basis of the Results	280
9.4.1	Theoretical Implications	280
9.4.2	Methodological Implications	282
9.4.3	Managerial and Practical Implications.	284
9.4.4	Governmental Implications	287

9.5	Potential Limitations of the Methodology.	289
9.5.1	Chosen Sample	289
9.5.2	Context and External Validity	289
9.5.3	Interviewer Bias	290
9.5.4	Translation Bias.	290
9.5.5	Causal Relationships	291
9.5.6	Conclusion on Limitations.	291
9.6	Contribution to the Body of Knowledge.	291
9.7	Recommendations for Future Research.	295
9.8	Chapter Conclusion	295
Appendix A: Structured Literature Review		297
Appendix B: Filled out Checklist (Example 1 of 5)		311
Appendix C: Questionnaire of Pilot Study		319
Appendix D: Translation of Professional Profiles and Roles in the Automotive Workshop		325
