

# Contents

<b>1 Basic Ideas</b>	1
1.1 Definitions, Relations, and Theories	3
1.1.1 Elastic Solids	3
1.1.2 Thermal Stresses	4
1.1.3 Equations of Motion	6
1.1.4 Thermomechanical Coupling	7
1.1.5 Classical Coupled Thermoelasticity	7
1.1.6 Lord–Shulman Model of Linear (1967) Thermoelasticity (L-S Model) or Extended Thermoelasticity (ETE)	9
1.1.7 Green–Lindsay Model of Linear Thermoelasticity (G-L Model (1972))	9
1.1.8 Green–Naghdi Model of Thermoelasticity	10
1.1.9 Basic Relations and Equations in Magnetoelasticity	11
<b>2 Vector-matrix Differential Equation and Numerical Inversion of Laplace Transform</b>	13
2.1 Vector-matrix Differential Equation	13
2.2 Solution of Vector-matrix Differential Equation	14
2.3 Applications	17
2.4 Numerical Inversion of Laplace Transform	21
<b>3 Coupled Thermoelasticity</b>	25
3.1 Problem (i)	25
3.2 Basic Equations and Formulation of the Problem	26
3.3 Solution Procedure	28
3.4 Boundary Conditions	30
<b>4 Generalized Thermoelasticity</b>	33
4.1 Problem (i)	33
4.2 Basic Equations and Formulation of the Problem	34
4.3 Solution Procedure	35

4.4	Boundary Conditions . . . . .	37
4.5	Numerical Solution . . . . .	38
4.6	Graphical Representation . . . . .	38
4.7	Concluding Remarks . . . . .	38
4.8	Problem (ii) . . . . .	43
4.9	Basic Equations and Formulation of the Problem . . . . .	44
4.10	Solution Procedure . . . . .	46
4.11	Boundary Conditions . . . . .	48
4.12	Problem (iii) . . . . .	49
4.13	Basic Equations and Formulation of the Problem . . . . .	49
4.14	Solution Procedure . . . . .	51
4.15	Problem (iv) . . . . .	53
4.16	Basic Equations and Formulation of the Problem . . . . .	54
4.17	Solution Procedure . . . . .	55
4.18	Boundary Conditions . . . . .	58
4.19	Graphical Representation . . . . .	59
4.20	Numerical Solution . . . . .	60
4.21	Concluding Remarks . . . . .	61
<b>5</b>	<b>Generalized Magnetoelastocity . . . . .</b>	<b>63</b>
5.1	Problem (i) . . . . .	63
5.2	Basic Equations and Formulation of the Problem . . . . .	64
5.3	Solution Procedure . . . . .	66
5.4	Boundary Conditions . . . . .	68
5.5	Numerical Solution . . . . .	69
5.6	Graphical Representation . . . . .	70
5.7	Concluding Remarks . . . . .	78
5.8	Problem (ii) . . . . .	80
5.9	Basic Equations and Formulation of the Problem . . . . .	81
5.10	Solution Procedure . . . . .	84
5.11	Boundary Conditions . . . . .	87
5.12	Problem (iii) . . . . .	88
5.13	Basic Equations and Formulation of the Problem . . . . .	88
5.14	Solution Procedure . . . . .	91
5.15	Boundary Conditions . . . . .	94
5.16	Numerical Solution . . . . .	95
5.17	Graphical Representation . . . . .	96
5.18	Concluding Remarks . . . . .	102

Problems and Solutions in Thermoelasticity and  
Magneto-thermoelasticity

Das, B.

2017, XIV, 104 p. 45 illus., 3 illus. in color., Hardcover

ISBN: 978-3-319-48807-3
