

Contents

- 1 Introduction** 1
 - 1.1 Document Structure 3
- 2 Related Works** 5
 - 2.1 Vibrotactile Devices 5
 - 2.2 Tactile Displays 6
 - 2.3 Force Feedback Systems 7
 - 2.4 Force Feedback Gloves and Wearable Devices 9
 - 2.5 Local Surface Display 9
 - 2.6 Full Shape Displays 10
 - References 12
- 3 Research Context and Concept of the System** 15
 - 3.1 Traditional Product Design Process 15
 - 3.2 New Product Design Process 17
 - 3.3 Concept of the System for Visual and Tactile Rendering 17
 - 3.4 SATIN System: Issues and Problems to Solve 19
 - 3.5 New System Specification and Architecture 23
 - References 25
- 4 Conceptual Development of the Tactile Interface** 27
 - 4.1 Cutting Plane and Geodesic Trajectory 27
 - 4.2 Concentrated Parameters Model 29
 - 4.3 Control Sectors 31
 - 4.4 Longitudinal Plane Solution and Transversal Plane Solution 32
 - 4.5 Kinematic of the System 37
 - Reference 39
- 5 Module with Indirect Actuation System** 41
 - 5.1 Concept of the Module 41
 - 5.2 Concept of the Module 42

5.3	Development of the Module Transmission System	42
5.4	Kinematic Analysis.	45
5.5	Design of the Module and Components	49
5.6	Assembly of Three Modules.	51
5.7	The Prototype.	54
5.8	Discussion of Pros and Limits	55
6	Module with Direct Actuation System	61
6.1	Issues and Solutions	61
6.2	Design of the Module.	63
6.3	Kinematic Analysis.	66
6.4	The Prototype and the Desktop Station.	75
6.5	The Control	78
7	Discussion and Users Test.	89
7.1	Characteristics of the Tactile Display Developed	89
7.2	Comparison of the Various Systems.	94
7.3	Users Preliminary Tests	97
7.4	Limits of the Tactile Display Developed	97
8	Augmented Reality Visualisation System.	101
8.1	Introduction to Augmented Reality.	101
8.2	Visualisation Interfaces.	102
8.3	Integration with the Tactile Interface	106
	References.	108
9	Conclusions and Future Works	109
9.1	Future Works	111

Tactile Display for Virtual 3D Shape Rendering

Mansutti, A.; Covarrubias Rodriguez, M.; Bordegoni, M.;

Cugini, U.

2017, X, 112 p. 61 illus., 20 illus. in color., Softcover

ISBN: 978-3-319-48985-8
