

Contents

1	Introduction	1
1.1	Volatility Forecasting	1
1.2	Option Pricing	3
1.3	Risk Management Methods	5
1.4	Neural Networks Approach	6
1.5	Book Layout	7
2	Time Series Modelling	9
2.1	Time Series Properties	10
2.1.1	White Noise	10
2.1.2	Stochastic Processes	10
2.1.3	Stationarity in Time Series	11
2.1.4	Autoregressive Models	12
2.2	Time Series Models	12
2.2.1	The Wiener Process	13
2.2.2	Geometric Brownian Motion with Drift	14
2.2.3	Itô Process	14
2.2.4	Linear Time Series Models	15
2.2.5	Moving Average Model	16
2.2.6	Auto Regressive Moving Model (ARMA)	17
2.3	Financial Time Series Modelling	17
2.3.1	Distributional Properties of the Return Series	18
2.3.2	Stylised Properties of Returns	19
2.3.3	Conditional Mean	20
2.3.4	Volatility Modelling	22
2.3.5	Conditional Heteroscedasticity Models	24
2.3.6	ARCH Model	24
2.3.7	GARCH Model	25

2.3.8	GARCH-in-Mean	25
2.3.9	Exponential GARCH	26
2.3.10	Time Varying Volatility Models Literature Review	27
3	Options and Options Pricing Models	31
3.1	Options	31
3.1.1	Call Options	32
3.1.2	Put Options	32
3.1.3	Options Moneyness	33
3.1.4	Intrinsic Value	33
3.1.5	Time Value	34
3.2	Option Pricing Models and Hedging	34
3.2.1	The Black-Scholes Options Pricing Model	35
3.2.2	Black-Schole Equation	35
3.2.3	Implied Volatility	36
3.2.4	Black-Scholes Option Pricing Model (BSOPM)	37
3.2.5	GARCH Option Pricing Models	40
3.3	Hedging	45
3.3.1	Delta Hedging	46
4	Neural Networks and Financial Forecasting	51
4.1	Neural Net Models	51
4.1.1	Preceptron	52
4.1.2	Multi-layer Preceptron (MLP)	53
4.1.3	Training MLP	55
4.1.4	Back Propagation	57
4.1.5	Mixture Density Networks	58
4.1.6	Radial Base Function Network	61
4.2	Neural Networks in Financial Forecasting	63
4.2.1	Neural Networks for Time Series Forecasting	63
4.2.2	Neural Networks in Conditional Volatility Forecasting	67
4.2.3	Volatility Forecasting with MDN	72
4.2.4	Application of Neural Networks Option Pricing	74
5	Important Problems in Financial Forecasting	81
5.1	Terms and Concepts Used	81
5.1.1	Financial Time Series	81
5.1.2	Options	84
5.2	Problem Definition	87
5.2.1	Volatility Forecasting	87
5.2.2	Option Pricing	88
5.2.3	Delta Hedging	88
5.3	Choice of Methodology	89
5.4	Research Method	90

6	Volatility Forecasting	91
6.1	Volatility Models	91
6.1.1	GARCH Model	92
6.1.2	EGARCH Model	93
6.1.3	Mixture Density Networks	93
6.2	Issues Investigated	97
6.3	Solution Overview	98
6.4	Forecast Evaluation	101
6.5	Data Analysis	102
6.6	Experimentation	103
6.7	Results	103
6.7.1	In-Sample Testing	104
6.7.2	Out-of-Sample Forecast Performance	105
6.7.3	One-Day Volatility Forecast	108
6.7.4	10 and 30 Days Forecast	109
6.8	Conclusion	111
7	Option Pricing	113
7.1	Option Pricing Models	114
7.1.1	GARCH Option Pricing Model (GOPM)	115
7.1.2	BSOPM Option Pricing Model	117
7.1.3	Implied Volatility	117
7.1.4	Artificial Neural Network (ANN)	118
7.1.5	Neural Networks for Option Pricing	119
7.1.6	My Option Pricing Model	120
7.2	Issues Investigated	121
7.3	New Option Pricing Model and Solution Overview	121
7.4	Data	123
7.5	Experimental Design	124
7.5.1	GOPM Parameters	124
7.5.2	Neural Network Training Methods	125
7.6	Performance Measures	125
7.6.1	Pricing Accuracy	125
7.7	Delta Hedging	126
7.7.1	Solution Overview	126
7.7.2	New Method Developed	127
7.8	Results	127
7.9	The Empirical Dynamics of the Volatility Smile	131
7.10	Summary and Conclusion	134
8	Value-at-Risk	137
8.1	Value-at-Risk Review	137
8.2	Value-at-Risk Definition	138

8.3	Modelling Value at Risk with Neural Networks	139
8.3.1	Historical Simulation Method	140
8.3.2	Variance-Covariance Method.	141
8.3.3	Monte Carlo Simulation Method.	142
8.4	Modelling Value-at-Risk with Neural Networks	143
8.5	Value-at-Risk (VaR)—Future Work	146
9	Conclusion and Discussion	149
9.1	Volatility Forecasting	150
9.2	Option Pricing and Hedging	153
9.3	Recapitulation.	155
9.4	Contributions of This Research.	157
	Appendix A: Detailed Results	159
	References	163

Computational Intelligence Applications to Option
Pricing, Volatility Forecasting and Value at Risk

Mostafa, F.; Dillon, T.; Chang, E.

2017, X, 171 p. 23 illus., Hardcover

ISBN: 978-3-319-51666-0
