

Contents

1	Introduction	1
	Caroline Chénard and Federico M. Lauro	
2	Ecogenomics of Deep-Ocean Microbial Bathotypes	7
	Logan M. Peoples and Douglas H. Bartlett	
3	Adaptations of Cold- and Pressure-Loving Bacteria to the Deep-Sea Environment: Cell Envelope and Flagella	51
	Kamila K. Myka, David J. Allcock, Emiley A. Eloë-Fadrosch, Theodora Tryfona, Andreas F. Haag, Federico M. Lauro, Douglas H. Bartlett and Gail P. Ferguson	
4	Microbial Electron Transport in the Deep Subsurface	81
	Jamie Hinks, Mi Zhou and Jan Dolfing	
5	Metagenomics of Hyperthermophilic Environments: Biodiversity and Biotechnology	103
	Andrea Strazzulli, Roberta Iacono, Rosa Giglio, Marco Moracci and Beatrice Cobucci-Ponzano	
6	Crenarchaeal Viruses of Hot Springs: Diversity, Ecology and Co-evolution	137
	Alice C. Ortmann	
7	New Insights into the Microbial Diversity of Polar Desert Soils: A Biotechnological Perspective	169
	Josie van Dorst, Nicole Benaud and Belinda Ferrari	
8	Exploring the Viral Ecology of High Latitude Aquatic Systems	185
	Caroline Chénard and Federico M. Lauro	

9	The Nature and Relevance of Solvent Stress in Microbes and Mechanisms of Tolerance	201
	Mike Manefield, Matthew Lee and Joanna Koenig	
10	Clouds: A Transient and Stressing Habitat for Microorganisms.	215
	Anne Marie Delort, Mickael Vaïtilingom, Muriel Joly, Pierre Amato, Nolwenn Wirgot, Audrey Lallement, Martine Sancelme, Maria Matulova and Laurent Deguillaume	

Microbial Ecology of Extreme Environments

Chenard, C.; Lauro, F.M. (Eds.)

2017, XV, 245 p. 17 illus., Hardcover

ISBN: 978-3-319-51684-4
