

List of Figures

Fig. 2.1	Framework of watershed management operations in Iran	9
Fig. 3.1	Flow diagram of the research method adopted	35
Fig. 3.2	Location of study area. Source: Tabatabai et al. (2006).....	37
Fig. 3.3	Topography of study area. Source: Khorasan General office of Natural Resource (1993).....	38
Fig. 3.4	Mean monthly precipitation and temperature of study watershed (the diagram is drawn based on Koppen climate classification system).....	40
Fig. 3.5	Annual Isohyet of the Study Watershed (units in mm). (Source: Khorasan Razavi Regional Water Authority, 2007).....	42
Fig. 3.6	Isothermal lines of the study watershed (units in °C) (Source: Khorasan Razavi Regional Water Authority, 2007).....	43
Fig. 3.7	Hydroclimatological gauging station in the watershed study. Source: Taghvaei (2008).....	48
Fig. 3.8	Three-dimensional view of the structure	51
Fig. 3.9	Research framework for people participation evaluation	54
Fig. 3.10	Scree plot of factors for participation variable.....	60
Fig. 3.11	P-P Plot and Kolmogorov–Smirnov test details for participation in WMP	67
Fig. 3.12	Bartlett and Leven test details for participation in WMP in terms of education status.....	67
Fig. 3.13	Bartlett and Leven test details for participation in WMP in terms of main occupation.....	68
Fig. 3.14	Bartlett and Leven test details for participation in WMP in terms of alternative occupation.....	68
Fig. 4.1	Double-mass curve analysis.....	75
Fig. 4.2	Double-mass curve of runoff data.....	77
Fig. 4.3	Cumulative precipitation-runoff plot for KAB for study period....	78
Fig. 4.4	Flow-duration curve for the three study phases	79
Fig. 4.5	Loose-stone check dam.....	81

Fig. 4.6	Gabion check dam.....	81
Fig. 4.7	Brush-wood check dam.....	82
Fig. 4.8	Earth-fill check dam.....	82
Fig. 4.9	Location of design check dams in the study area. Source: this study.....	87
Fig. 4.10	Location of check dams constructed in the study area. Source: this study.....	88
Fig. 4.11	Seeding.....	90
Fig. 4.12	Planting of seedling.....	90
Fig. 4.13	Tree planting.....	91
Fig. 4.14	Contour furrowing.....	91
Fig. 4.15	Shrub planting.....	92
Fig. 4.16	Location of bio-engineering operations in the study area. Source: this study.....	94
Fig. 4.17	Impact of WMO on flood occurrence (FO).....	97
Fig. 4.18	Impact of WMO on RST.....	99
Fig. 4.19	Impact of WMO on BLE.....	101
Fig. 4.20	Impact of WMO on WC.....	102
Fig. 4.21	Comparison of percentage of impact of WMO on orchards.....	103
Fig. 4.22	Impact of WMO on Migration.....	104
Fig. 4.23	Impact of WMO on livestock.....	105
Fig. 5.1	The frequency distribution of the standardized errors.....	127
Fig. 5.2	P-P plot of standardized errors.....	128
Fig. 5.3	The regression standardized errors for the dependent variable.....	128
Fig. B1	Loose-stone check dam.....	152
Fig. B2	Earth-filled dam.....	152
Fig. B3	Gabion check dam.....	153
Fig. B4	Brushwood check dam.....	154
Fig. B5	Masonry check dam.....	155

List of Tables

Table 2.1	Brief history of WMP in some of Asian countries	11
Table 2.2	Chronology of scientific watershed management activities in Iran (1950–2011).....	15
Table 2.3	Watershed studies conducted in KAB	16
Table 2.4	Watershed management studies in Iran	20
Table 3.1	List of author/report where the data were sourced for the study.....	34
Table 3.2	Physical characteristics of KAB.....	39
Table 3.3	Average monthly precipitation (mm) of the watershed study (over 25 years).....	41
Table 3.4	Average monthly temperature (°C) of the Kardeh watershed (over 25 years).....	41
Table 3.5	Geological formations of the study watershed	44
Table 3.6	Rangeland and vegetation type in the study area	45
Table 3.7	Characteristics of hydrometric stations of study watershed.....	47
Table 3.8	Time frame of study	49
Table 3.9	The effective factors of MPSIAC model	51
Table 3.10	Population of sampled villages in study area	55
Table 3.11	Sampling procedure.....	55
Table 3.12	Socio-demographic characteristics.....	56
Table 3.13	Structure and scale of the dependent and independent variables.....	59
Table 3.14	KMO and Barlett's test of sample size for participation	59
Table 3.15	Varimax rotation factor pattern of people participation	61
Table 3.16	Cronbach's alpha for dependent and independent variables	64
Table 3.17	Timeline of data collection	65
Table 4.1	Annual precipitation for stations indicated (mm).....	73
Table 4.2	Cumulative annual precipitation for stations indicated (units in mm)	74
Table 4.3	Annual runoff of study stations (units in mm)	75

Table 4.4	Cumulative annual runoff of study stations (units in mm).....	76
Table 4.5	Comparison of predicted and implemented structural measures	80
Table 4.6	Evaluation score for check-dam state of function	83
Table 4.7	Evaluation score for age of structure.....	83
Table 4.8	Evaluation score for sediment trap efficiency of structure	83
Table 4.9	Engineering factors related to different types of structural operations	84
Table 4.10	Volume of trapped sediment in each sub-basin	86
Table 4.11	Sediment trap coefficient of controlling check dams	87
Table 4.12	Types of structural operation used.....	89
Table 4.13	Design and implemented bio-engineering measures in study area.....	89
Table 4.14	List of species used under biological measures.....	92
Table 4.15	Types of bio-engineering operations used	92
Table 4.16	Evaluation score for canopy cover of bio-engineering	93
Table 4.17	Engineering factor related to different types of biological operations	93
Table 4.18	Performance of structural and bio-engineering measures	94
Table 4.19	Summary of villagers' response to prepared statements	96
Table 4.20	Respondents' statement of impact of WMO on FO	97
Table 4.21	Impact of WMO on flood occurrence.....	98
Table 4.22	Impact of WMO on river sediment transport	98
Table 4.23	Impact of WMO on RST	98
Table 4.24	Impact of WMO on AY	99
Table 4.25	Impact of WMO on AY (Chi-square test).....	100
Table 4.26	Impact of WMO on bare land extent (BLE).....	100
Table 4.27	Impact of WMO on BLE (Chi-square test)	100
Table 4.28	Impact of WMO on well capacity	101
Table 4.29	Impact of WMO on WC	101
Table 4.30	Impact of WMO on orchards.....	103
Table 4.31	Impact of WMO on orchard (Chi-square test).....	103
Table 4.32	Impact of WMO on migration	104
Table 4.33	Impact of WMO on migration	104
Table 4.34	Impact of WMO on livestock	105
Table 4.35	Impact of WMO on livestock	105
Table 4.36	Results of Chi-square test ($\alpha = 0.01$).....	106
