

# Contents

<b>1</b>	<b>General Overview</b>	<b>1</b>
1.1	Introduction	1
1.2	Types of Nuclear Power Reactors	10
1.3	Small Modular Reactors (SMRs)	11
1.3.1	Benefits of the Use of Small Modular Reactors	15
1.3.2	The Perspective of the Small Modular Reactors Market at World Level	22
1.3.3	Main Safety Features of the Small Modular Reactors	26
1.3.4	Different Small Modular Reactor Designs	27
	References	32
<b>2</b>	<b>Advanced Nuclear Technologies and Its Future Possibilities</b>	<b>35</b>
2.1	Introduction	35
2.2	Generation III, III <sup>+</sup> and IV Nuclear Power Reactors	37
2.2.1	Generation IV Nuclear Power Reactors	37
2.2.2	GIF Initiative Goals	38
2.2.3	Descriptions of the Generation IV Systems	41
2.2.4	The Future of the Generation IV Nuclear Power Reactors	49
2.3	European Pressurised Reactor (EPR)	54
2.3.1	EPR Design Project	54
2.3.2	EPR Description	55
2.3.3	Safety, Competitiveness and Flexibility	58
2.3.4	EPR Projects	59
2.4	Small Modular Reactors (SMRs)	61
2.4.1	Why the Interest in Small Modular Reactors	61
2.4.2	Small Modular Reactors and Their Attributes	63
2.4.3	Small Modular Reactor Designs	68

2.5	Nuclear Fusion Reactors . . . . .	112
2.5.1	Plasma Confinement and Its Devices . . . . .	113
2.5.2	Fusion Reactor Projects . . . . .	116
2.6	Conclusions . . . . .	117
	References . . . . .	118
<b>3</b>	<b>The Current Situation and Perspective of the Small Modular Reactors Market in North and South America, Including the Caribbean Regions . . . . .</b>	<b>123</b>
3.1	Background . . . . .	123
3.2	The Current Situation and Perspective on the Use of Small Modular Reactors for Electricity Generation in the United States and Canada . . . . .	124
3.2.1	United States . . . . .	124
3.2.2	Nuclear Power Plants Operating in the United States . . . . .	125
3.2.3	Types of Small Modular Reactors Under Development in the United States . . . . .	131
3.2.4	The Commercialisation Programme of Small Modular Reactor Technology in the United States . . . . .	133
3.2.5	Financing of Small Modular Reactors in the United States . . . . .	135
3.2.6	Market Perspective of the Small Modular Reactors in the United States . . . . .	136
3.2.7	The Need of Small Modular Reactors in the United States . . . . .	137
3.2.8	Public Opinion Regarding the Use of Nuclear Energy for Electricity Generation in the United States . . . . .	139
3.3	Canada . . . . .	141
3.3.1	Current Nuclear Power Plants Operating in Canada . . . . .	141
3.3.2	Type and Capacity of Small Modular Reactors to Be Built in Canada . . . . .	144
3.3.3	The Future Role of Nuclear Power in Canada . . . . .	147
3.4	The Current Situation and Perspective on the Use of Small Modular Reactors in Latin America and the Caribbean . . . . .	147
	References . . . . .	152
<b>4</b>	<b>The Current Situation and Perspective of the Small Modular Reactors Market in the European Region . . . . .</b>	<b>155</b>
4.1	Introduction . . . . .	155
4.2	Current Situation and Perspective in the Use of Small Modular Reactors in the European Region . . . . .	161
4.2.1	The Russian Federation (Russia) . . . . .	162
4.2.2	The United Kingdom (U.K.) . . . . .	173
4.2.3	France . . . . .	182

4.2.4	Ireland . . . . .	186
4.2.5	Sweden . . . . .	187
4.2.6	Germany . . . . .	188
4.2.7	Poland . . . . .	189
4.2.8	Finland . . . . .	192
4.2.9	The Nuclear Power Programme in Other European Countries . . . . .	193
	References . . . . .	195
<b>5</b>	<b>The Current Situation and Perspective of the Small Modular Reactors Market in the Asia and the Pacific Region . . . . .</b>	<b>197</b>
5.1	Introduction . . . . .	197
5.2	Current Situation and Perspective in the Use of Small Modular Reactors in the Asian and the Pacific Region . . . . .	201
5.2.1	China . . . . .	201
5.2.2	The Republic of Korea (South Korea) . . . . .	213
5.2.3	Iran, Islamic Republic of . . . . .	219
5.2.4	India . . . . .	222
5.2.5	Pakistan . . . . .	228
5.2.6	Bangladesh . . . . .	230
5.2.7	Indonesia . . . . .	231
5.2.8	Vietnam . . . . .	233
5.2.9	Thailand . . . . .	235
5.2.10	Philippines . . . . .	237
5.2.11	Malaysia . . . . .	237
	References . . . . .	239
<b>6</b>	<b>Benefits of Small Modular Reactors . . . . .</b>	<b>241</b>
6.1	Introduction . . . . .	241
6.2	Enhanced Safety Features . . . . .	244
6.2.1	Improved Source Term . . . . .	244
6.2.2	Reduced Linear Element Rating . . . . .	244
6.2.3	Enhanced Decay Heat . . . . .	245
6.2.4	Other Inherent and Passive Safety Features . . . . .	245
6.3	Economic Competitiveness Between Small Modular Reactors and Large Nuclear Power Reactors . . . . .	247
6.3.1	Lower Upfront Cost . . . . .	249
6.3.2	Modularisation . . . . .	249
6.4	Potential Solution for Remote Locations and Developing Countries . . . . .	250
6.5	Proliferation Resistances . . . . .	253
6.6	Conclusions . . . . .	254
	References . . . . .	255

<b>7 The Future of Small Modular Reactors. . . . .</b>	<b>257</b>
7.1 Introduction . . . . .	257
7.2 Investment in Nuclear Power Plants . . . . .	258
7.3 Safety Issues Associated to Nuclear Power Plants . . . . .	259
7.4 Construction of New Nuclear Power Plants . . . . .	260
7.5 The Small Modular Reactors . . . . .	261
7.6 Priorities in Research and Development Activities to Be Considered for a Group of Selected Small Modular Reactors. . . . .	265
7.6.1 Priority R&D for Gas-Cooled Fast Reactors . . . . .	265
7.6.2 Priority R&D for Lead-Bismuth Eutectic-Cooled Reactors (LBE) . . . . .	266
7.6.3 Priority Research and Development for Sodium-Cooled Reactors . . . . .	266
References. . . . .	267

Small Modular Reactors for Electricity Generation  
An Economic and Technologically Sound Alternative  
Morales Pedraza, J.  
2017, XIX, 267 p. 40 illus., 39 illus. in color., Hardcover  
ISBN: 978-3-319-52215-9
