Part I Framing the Scenario of Public-Interest Services

1	Citizen Activism and Social Innovation	3
1.1	Creative Communities.	3
1.2	Citizen Activism and Active Citizenship	6
1.3	Social Innovation	7
1.4	Design for Social Innovation	10
	References.	12
2	New Forms of Economies: Sharing Economy, Collaborative Consumption, Peer-to-Peer Economy	15
2.1	Attempts to Frame the Umbrella-Concept of Sharing Economy	15
2.2	Emerging Problems: Lack of Legal, Fiscal and Labour Regulation	20
2.3	Exploring the Social Side of the Sharing Economy	22
	References.	25
3	New Forms of Welfare: Relational Welfare, Second Welfare, Co-production	27
3.1	Relational Welfare, Open Welfare, Second Welfare	27
3.2	Co-production.	30
3.3	The Entrepreneurial State, the Partner State, the P2P State.	32
3.4	Emerging Problems: From Empowering to Exploitation.	34
	References.	35
4	Design for Public-Interest Services: An Emerging Field of Experimentation	37
4.1	Defining Public Interest	37
4.2	Defining Public-Interest Interest Services	40
4.3	Design for Services.	42

4.4	Participatory Design and Codesign	47
4.5	Infrastructures and Infrastructuring	53
	References	57

Part II Experimenting with Public-Interest Services

5	The ‘Creative Citizens’ Experimentation (POLIMI DESIS Lab).	63
5.1	A Deep Dive into Zone 4	64
5.2	Food Systems as ‘Boundary Topic’	65
5.3	Location: Cascina Cuccagna	66
5.4	People: A Community of Local Activists	68
5.5	Stakeholders: Associations, Local Shops, Committees and Institutions	70
5.6	Topics: Four Thematic Cycles	71
5.7	Communication: Visual Identity and Local-Digital Campaign	72
5.8	Codesign Sessions: From Creating to Prototyping	74
5.9	Codesign Tools: Inspiring, Framing and Implementing Tools	91
5.10	Final Results: Six Public-Interest Services	93
	References	100
6	Comparing ‘Creative Citizens’ with a Set of Interconnected Experimentations.	101
6.1	‘Welcome to St Gilles’, Belgium (LUCA DESIS Lab)	101
6.2	‘Green Camden’, UK (UAL DESIS Lab)	105
6.3	The ‘NYC Office for Public Imagination’, USA (Parsons DESIS Lab)	109
	References	115
7	Reflections from the Comparative Analysis.	117
7.1	Legacy of the Experimentations	117
7.2	Community-Centred Design as Common Approach	122
7.3	Designing Services as a Starting and/or Ending Point	124
7.4	Designer’ Role and the Risk of Instrumentalisation for ‘Propaganda’	126
	References	128

Part III Infrastructuring Public-Interest Services

8	Defining a Collaborative Infrastructure.	133
8.1	Characteristics of a Collaborative Infrastructure	133
8.2	Public Innovation Places as Collaborative Infrastructures	137
	References	140

9	Infrastructuring by Design	141
9.1	The Infrastructuring Process in Ten Steps.	141
9.1.1	Meet a Community—Amplify Individual Interests into Public Interest	142
9.1.2	Select Service Topics—Gather Around Local Relevant Issues	144
9.1.3	Identify Local Stakeholders—Organise Meaningful Encounters.	146
9.1.4	Identify a Symbolic Place—Set a Space for Conversation and Discussion	148
9.1.5	Develop a Programme—Align Agendas and Interests	150
9.1.6	Codesign—Enhance Public Imagination and Hope	152
9.1.7	Prototype—Enact Service Rehearsals	153
9.1.8	Co-produce—Make Services Together	155
9.1.9	Co-manage—Define Roles and Rules	159
9.1.10	Implement—Service Legacy and Legitimacy.	161
9.2	Comparing the Infrastructuring Process to Other Frameworks	163
	References.	167
10	Expert Designer’s Role—Much More Than Facilitating	169
	References.	175
11	Codesign for the Public Interest	177
	References.	188
	Afterword—The Cultural Territory	191
