Contents

1 Introduction 1
- 1.1 Land use in Ancient Greece 1
- 1.2 Genetical Trends 3
- 1.3 Main Threats of the Soils of Greece 4

2 Soil-Forming Factors 7
- 2.1 Climate 7
  - 2.1.1 The Bioclimate of Greece 8
  - 2.1.2 Climate and Vegetation Affected Soil Properties 9
- 2.2 Parent Material 10
  - 2.2.1 Parent Material Affected Soil Properties 12
- 2.3 Relief 14
- 2.4 The Biotic Factor 15

3 Soil Classification 19

4 Residual Soils on Mountains and Hills 27
- 4.1 Soils on Mesozoic Limestones 27
  - 4.1.1 Basic Soil Properties 28
- 4.2 Soils on Acid Igneous Rocks 31
  - 4.2.1 General Soil Properties 31
- 4.3 Soils on Schists 35
  - 4.3.1 General Soil Properties 36
- 4.4 Soils on Flysch 38
  - 4.4.1 General Soil Properties 40
- 4.5 Soils on Basic Igneous Rocks 41
  - 4.5.1 General Soil Properties 43
- 4.6 Soils on Volcanic Rocks 43
  - 4.6.1 General Soil Properties 44
- 4.7 Tertiary Deposits 46
- 4.8 Soils on Man-made Terraces 48

5 Colluvial Soils 53

6 Soils on Clay Deposits and Conglomerates 55
- 6.1 General Soil Properties 56
  - 6.1.1 Management Groups 59

7 Recent Lacustrine and Organic Soils 61
- 7.1 General Soil Properties 63
- 7.2 Management Groups 65

8 Soils on Alluvial Deposits 67
8.1 Soils on Holocene Alluviums 67
8.1.1 General Soil Properties of Fluvisols 68
8.2 Soils on Pleistocene–Pliocene Deposits 69

9 Specific Characteristics of Alluvial Soils 71
9.1 Soils Included in Soil Association 19 (Calcareous Entisols, Inceptisols with Inclusions of Solonchak on Holocene Alluvium) 71
9.2 Soils Included in Soil Association 20 (Calcareous Inceptisols, Entisols, and Rhodoxerlafs on Holocene Alluvium and Holocene Terraces) 74
9.3 Soils Included in Soil Association 22 (Calcareous Aquents, Aquepts, and Solonchak on Holocene Alluvium). 76
9.4 Soils Included in Soil Association 23 (Calcareous Chromoxerets, Pelloxererts, Haploxeralfs, and Xerochrepts on Holocene Alluvium and Quaternary Terraces) 76
9.5 Soils Included in Soil Association 24 (Calcareous Aquents, Aquepts with Solonchak on Recent Alluvium) 77
9.6 Management Groups 78
9.6.1 Thessaly. 79
9.6.2 Management Groups of Pieria Region (ISMC 1995) 82

10 Land Degradation and Desertification 87
10.1 Factors and Processes of Desertification 88
10.1.1 Climate 88
10.1.2 Soil 88
10.1.3 Topography 89
10.1.4 Vegetation 89
10.1.5 Human Actions 90
10.2 Measures to Combat Desertification. 91
10.3 Research Related to Desertification 93

11 Soil Research 97
11.1 Forest Soils 97
11.2 Soil Mapping and Land Evaluation 97
11.3 Soil Genesis and Classification 98
11.4 Soil Degradation and Land Protection 98
11.5 Soil Fertility and Fertilization 99
11.6 Soil Chemical and Physical Properties 99
11.7 Soil Quality and Groundwater Pollution 100
11.8 Waste Disposal in Soils 100
