Part I Sport, Athletes and Training

1 The Evolution of Sport in Society	3
1.1 Introduction	3
1.2 The First Traces of Sport	3
1.3 The Emergence of the Olympics	4
1.4 Men and Women in Sport	4
1.5 Global Expansion: Modern-Day Sport	5
1.5.1 Modern-Day American Sport.	5
References.	6
2 The Popularity and Benefits of Sport and Exercise:	
Implications in Dentistry	7
2.1 Introduction	7
2.2 Implications for the Dental Care Team	7
2.3 Understanding Participation: The Benefits of Sport and Exercise.	8
2.4 Participation in Sport and Exercise: A Few Statistics	9
2.5 The Participation of Children in Sport.	9
2.6 Disabled Athletes in Sport	10
References.	11
3 Specifics of Physical Sports and Athletes: Different Types of Athletic Patients	13
3.1 Introduction	13
3.2 A Definition of Sport	13
3.3 A Clarification of Physical Activity, Sport and Exercise.	14
3.4 The Connection Between Different Types of <i>Physical</i> Sports.	14
3.5 Athletes: A Definition	16
3.5.1 Which Sport for Which Athlete?	16
References.	18

4	Understanding Training for Physical Sports and Its Physiological Demands	19
4.1	Introduction	19
4.2	The Aim of Training	19
4.3	The Four Key Parameters of Physical Training	21
4.4	Limitations of Athletic Performance	22
4.4.1	During Competition and Training	22
4.4.2	Long-Term Limitations	22
	References	23
Part II Oral Health and Sports-Related Risks		
5	The Importance of Oral Health and Athletes	27
5.1	Introduction	27
5.2	Oral Health	27
5.3	Risk Factors and Oral Health: On a Global Scale	28
5.4	Reducing Oral Health Risks: Guidelines from the WHO	28
5.5	The Specific Case of Athletes and Oral Health	29
5.6	Regulatory Medical Surveillance of Sport: A European Example	29
5.7	The Role of Sports Federations: The French Example	30
	References	31
6	Oral Health Risk Factor: Nutrition of Athletes	33
6.1	Introduction	33
6.2	Energy Pathways (Metabolism) of Physical Exertion	33
6.3	The Energy Consumption of Athletes (Quantitative)	34
6.3.1	Quantitative Energy Expenditure of a Moderately Active Adult	34
6.3.2	Energy Requirements of Athletes in Different Sports	35
6.4	Specific Nutrition of Athletes	36
6.5	The Risk to Oral Health: Dental Caries and Erosion	37
6.5.1	Sports Supplements	37
6.5.2	The Risk of Dental Caries: The Need for a ‘Sugar Fix’	37
6.5.3	The Erosive Potential of Sports Drinks	38
6.5.4	Summary: Athletes Particularly at Risk from Dental Caries or Erosion	38
	References	39
7	Oral Health Risk Factor: Cumulative Training and High-Intensity Sessions	41
7.1	Introduction	41
7.2	Cumulative Weekly Training	41
7.3	Intensity of Training Coupled to Cumulation of Training	42
7.3.1	Exercise-Induced Modulation of the Immune System: Risk Factor	42
7.3.2	Sports-Related Immunomodulation and Dentistry	43
	References	44

8	Oral Health Risk Factor: Quantitative Salivary Alterations	45
8.1	Introduction	45
8.2	Saliva Production During Physical Exertion	45
8.2.1	Stress: Stimulation of the Sympathetic Nervous System	46
8.2.2	Heat Production and Homeostasis	46
8.2.3	Buccal Respiration	47
8.3	Hyposalivation as a Risk for Oral Health: The Roles of Saliva	47
8.3.1	Saliva, Oral Health and Sport	47
	References	50
9	Oral Health Risk Factor: Psychology of the Athlete	51
9.1	Introduction	51
9.2	The First Risk: Stress and Anxiety	51
9.2.1	Stress, Athletes and Sport	52
9.2.2	Stress and Anxiety as a Risk Factor to Oral Health: Bruxism	52
9.2.3	Repercussions of Bruxism on Oral and General Health	53
9.3	The Second Risk: Body Image	54
9.3.1	Eating Disorders: Anorexia Nervosa and Bulimia Nervosa, Prevalence in Sport	55
9.3.2	Eating Disorders and Oral Health	55
	References	57
10	Oral Health Risk Factor: Dental Traumatology in Sport	59
10.1	Introduction	59
10.2	The Prevalence of Orofacial Sports-Related Trauma in America	60
10.3	Maxillofacial Positions and Dental Traumatology	60
10.3.1	Prolonged Aerobic Exercise	60
10.3.2	Explosive Anaerobic Exercise	60
10.4	Which Sports Pose the Greatest Risk?	61
10.5	Which Athletes Are at Greatest Risk?	62
10.6	Reducing the Risk of Orofacial Traumatology in Sport	63
	References	64
11	Other Sports-Related Oral Health Risk Factors: Medication, Education and Access to Dental Care	65
11.1	Introduction	65
11.2	Athletes and Medication	65
11.2.1	Self-Medication and Athletes	65
11.2.2	Doping and Athletes	66
11.3	Education, Knowledge and Motivation: Risk Factor	66
11.4	Complicated Access to Dental Treatment: Risk Factor	66
	References	67

Part III Clinical Reality: Physiological Processes and Oral Health

12 Sport, Periodontal Consequences and Athletic Patients	71
12.1 Introduction	71
12.2 Specific Case: Precocious Alveolysis	71
12.2.1 Why Are Athletes at Risk of Precocious Alveolysis?	72
12.3 Gingival Hypertrophy	73
12.4 Swimmers' Calculus	73
References	74
13 Sport, Dental Consequences and Athletic Patients	75
13.1 Introduction	75
13.2 Dental Erosion: A New Epidemic?	75
13.2.1 Aetiology of Erosion	76
13.2.2 The Specific Vulnerability of Athletes to Erosion	77
13.2.3 The Variable Erosive Power of Sports Drinks	77
13.2.4 The Erosion Process	78
13.2.5 Diagnosis of Erosion	80
13.2.6 Clinical Examination	80
13.2.7 Complimentary Examinations	81
13.2.8 Introduction to Therapeutic Solutions of Dental Erosions	82
13.3 The Prevalence of Dental Caries	82
13.3.1 The Carious Process	83
13.3.2 The Diagnostic of Caries	83
13.3.3 Introduction to the Treatment of Dental Caries	84
References	85
14 The Dry Mouth Syndrome of Athletes	87
14.1 Introduction	87
14.2 Oral Consequences	87
References	89
15 Dental Occlusion and Athletic Performance	91
15.1 Introduction	91
15.2 An Explanation: Occluso-Postural Equilibrium	91
15.3 Mandibular Laterodeviation and Posture Modification	92
15.4 Connecting Posture Modification and Athletic Performance	93
15.4.1 Examples of the Biomechanical Consequences of Malocclusion and Altered Posture	93
15.4.2 General Principles of Orthodontic Treatment for Athletes	96
References	97
16 The Influence of Physical Effort on the Manducator System: Synkinesis	99
16.1 Introduction	99
16.2 An Explanation: The Phenomenon of Synkinesis	99

16.3	Connecting Synkinesis, Athletes and Physical Exertion	100
16.3.1	Synkinesis of the Mandibule and Performance	100
16.3.2	Synkinesis of the Tongue and Performance	101
16.3.3	Synkinesis of the Lips and Performance	102
	References	103
17	The Spread of Oral Infections and Athletic Performance	105
17.1	Introduction	105
17.2	The Link Between Periodontal Disease and Systematic Spread of Oral Infection	105
17.3	The Spread of Oral Bacteria in Dental Practice	106
17.4	Pathways of Oral Micro-organisms	106
17.5	Oral Infections and the Athlete	108
17.5.1	The Example of Achilles Tendinitis (Tendinosis)	108
	References	110
18	Dental Pain, Life Quality and Athletic Performance	111
18.1	Introduction	111
18.2	Dental Pain and Its Evaluation in Dentistry	111
18.3	The Causes of Dental Pain	112
18.4	Dental Pain and Athletes	112
18.5	Dental Pain and Athletic Performance	113
18.6	Notion of Life Quality and Athletes	114
18.7	The Notion of Impaired Oral Health, Quality of Life and Athletes	114
	References	115
Part IV Dental Management and Care of Athletic Patients		
19	General Principles: Caring for the Athletic Patient in Sports Dentistry	119
19.1	Introduction	119
19.2	The Multidisciplinary Component	119
19.3	The First Consultation	120
19.3.1	The Clinical Examination of the Athlete	121
19.3.2	The Extra-oral Exam: Specific to Athletes	121
19.3.3	The Intra-oral Exam: Specific to Athletes	121
19.3.4	Complimentary Examinations to Confirm Clinical Findings	121
19.4	The Treatment Plan	123
	Reference	123
20	Dental Practice for Athletic Patients: Principles of Prevention and Symptomatic Therapeutic Solutions	125
20.1	Introduction	125
20.2	Prevention Management Strategies for Athletic Patients	125

20.3	A Specific Example of Prevention in Sport: Traumatology.	127
20.3.1	Germectomies	127
20.3.2	Intra-oral Protections (Mouthguards)	127
20.4	Principles of Therapeutic Solutions for Common Hard Tissue Dental Lesions in Athletes: Erosions and Dental Caries.	129
20.5	Symptomatic Treatment.	130
	References.	131
21	The Treatment of Dental Trauma in Sport.	133
21.1	Introduction	133
21.2	A Concise Guide to the Treatment of Sports-Related Orofacial Trauma.	133
22	Doping, Prescription and Dentistry.	139
22.1	Introduction	139
22.2	Prescription in Dental Practice.	139
22.3	Athletes Requiring Therapeutic Use Exemptions	140
22.4	World Anti-Doping Code: Prohibited Substance List 2016.	140
22.5	Prohibited Substances at All Times (In and Out of Competition)	142
22.5.1	Anabolic Androgenic Steroids (AASs)	142
22.5.2	Peptide Hormones, Growth Factors, Related Substances and Mimetics.	143
22.5.3	Beta-2 Agonists	144
22.5.4	Hormone and Metabolic Modulators.	144
22.5.5	Diuretics and Masking Agents.	145
22.6	Prohibited in Competition Only.	145
22.6.1	Stimulants	145
22.6.2	Narcotics	147
22.6.3	Cannabinoids	147
22.6.4	Glucocorticoids	147
22.7	Substances Prohibited in <i>Particular Sports</i>	147
22.7.1	Alcohol.	147
22.7.2	Beta-Blockers.	148
	References.	149
23	Conclusion	151
	Table of Illustrations.	153
	Index.	157

Sport and Oral Health

A Concise Guide

Budd, S.C.; Egea, J.-C.

2017, XVII, 160 p. 77 illus., 76 illus. in color., Hardcover

ISBN: 978-3-319-53422-0
