

Contents

Gene Transfer Strategies and Applications in Genetic Diseases	1
Nicola Brunetti-Pierri	
Safety and Efficacy of Retroviral and Lentiviral Vectors for Gene Therapy	9
Daniela Cesana, Monica Volpin, Yasmin Natalia Serina Secanechia and Eugenio Montini	
Adenovirus Vector Toxicity	37
Andrew W. Harmon and Andrew P. Byrnes	
Helper-Dependent Adenoviral Vectors for Gene Therapy of Inherited Diseases	61
Pasquale Piccolo and Nicola Brunetti-Pierri	
AAV Vector-Based Gene Therapy, Progress and Current Challenges	77
Klaudia Kuranda and Federico Mingozzi	
Physical Methods of Gene Delivery	113
María José Herrero, Luis Sendra, Antonio Miguel and Salvador F. Aliño	
Designer Effectors for Editing and Regulating Complex Genomes	137
Maximilian Müller, Tafadzwa Mlambo and Claudio Mussolino	
siRNA Therapeutics to Treat Liver Disorders	159
Chengjung Lai, Cristina Martin-Higueras and Eduardo Salido	
Oligonucleotide Therapy	191
Michela Alessandra Denti and Giuseppina Covello	
Index	219

Safety and Efficacy of Gene-Based Therapeutics for
Inherited Disorders

Brunetti-Pierri, N. (Ed.)

2017, IX, 220 p. 32 illus., 19 illus. in color., Hardcover

ISBN: 978-3-319-53455-8
