

Contents

1 Antibiotic-Resistant Staphylococci Isolated from Hermetically Packaged Frozen Vegetables.	1
Izabela Steinka, Caterina Barone, Salvatore Parisi and Marina Micali	
1.1 Introduction	2
1.2 Materials and Methods	3
1.2.1 Microbiological Analysis.	5
1.3 Results	5
1.4 Conclusions	18
References.	18
2 Technology and Chemical Features of Frozen Vegetables	23
Izabela Steinka, Caterina Barone, Salvatore Parisi and Marina Micali	
2.1 Introduction	23
2.2 Frozen Foods: Chemical and Physical Modifications	24
2.3 Frozen Foods: Main Technological Processes.	26
2.3.1 Air Blast Freezers	26
2.3.2 Plate Freezers	27
2.3.3 Immersion Freezers.	27
References.	28
3 Instrumental Systems for the Control of Frozen Vegetables During Refrigeration.	31
Izabela Steinka, Caterina Barone, Salvatore Parisi and Marina Micali	
3.1 The Importance of Frozen Storage: Introduction.	31
3.2 Industrial Freezers for Frozen Storage	33
References.	35

4	Colorimetric Modifications in Frozen Vegetables	37
	Izabela Steinka, Caterina Barone, Salvatore Parisi and Marina Micali	
4.1	Colour Modifications in Frozen Vegetables: An Introduction	38
4.2	Colour Modifications in Frozen Vegetables. Main Reasons	38
4.3	Colour Modifications in Frozen Vegetables. Analytical	
	Evaluation.	39
	References.	40

The Chemistry of Frozen Vegetables

Steinka, I.; Barone, C.; Parisi, S.; Micali, M.

2017, VI, 41 p. 3 illus. in color., Softcover

ISBN: 978-3-319-53930-0
