

Contents

1	Introduction	1
1.1	Scale, Conformal and Weyl Invariance	5
1.2	Renormalisation Group Flows and the Zamolodchikov c-Theorem	8
1.3	Local Renormalisation Group	10
2	Renormalisation and the Conformal Anomaly	15
2.1	Renormalisation and Local Couplings	15
2.2	Trace Anomaly	17
2.3	Renormalisation of Two-Point Green Functions	20
3	The Local Renormalisation Group and Weyl Consistency Conditions	23
3.1	Diffeomorphism and Anomalous Weyl Ward Identities	23
3.2	Renormalisation Group and Green Functions	26
3.3	Weyl Consistency Conditions	29
3.4	Local RGE and Weyl Consistency Conditions	30
4	c-Theorem in Two Dimensions	33
4.1	c-Theorem and the Spectral Function	33
4.2	c-Theorem and Renormalisation Group Flow	38
4.3	c-Theorem in Position Space	40
4.4	c-Theorem and Dispersion Relations	41
5	Local RGE and Weyl Consistency Conditions in Four Dimensions	45
5.1	Local RGE, Trace Anomaly and Weyl Consistency Conditions	45
5.2	Renormalisation Group and Anomalous Ward Identities for Green Functions	48
5.3	Weyl Consistency Conditions	51

6	c, b and a-Theorems in Four Dimensions	53
6.1	Spectral Functions and the c and b ‘Theorems’	53
6.2	Renormalisation Group Flow for the c and b ‘Theorems’	56
6.3	Weyl Consistency Conditions and the a -Theorem	58
7	Local RGE and Maximally Symmetric Spaces	61
7.1	Renormalisation Group, Weyl Consistency Conditions and the a -Theorem	61
7.2	RG Flow of $\langle T^\mu_\mu \rangle$ on Maximally Symmetric Spaces	66
7.3	Zamolodchikov Functions and the Search for a C -Theorem on the Sphere	69
7.3.1	Geometry of Constant Curvature Spaces	69
7.3.2	Two-Point Green Functions and Conservation Identities	70
7.3.3	The Zamolodchikov C -Function on the Sphere	72
7.3.4	Dimensional Analysis and RG Flow of the C -Function	76
8	The Weak a-Theorem and 4-Point Green Functions	77
9	Global Symmetries and Limit Cycles	81
9.1	Global Symmetries and Weyl Consistency Conditions	81
9.2	Limit Cycles	83
10	Summary and Outlook	85
A	Counterterms for Renormalised Green Functions	89
B	RGEs for Two-Point Green Functions	93
C	Zamolodchikov Functions in n Dimensions	97
	References	101

The c and a-Theorems and the Local Renormalisation
Group
