

# Contents

<b>1</b>	<b>Enhanced Bacteriophages</b>	<b>1</b>
1.1	Introduction	2
1.2	Materials	4
1.2.1	Media	5
1.2.2	Buffers	5
1.2.3	Bacteria	6
1.2.4	Preparation of $\text{FeSO}_4 \cdot 7\text{H}_2\text{O}$ Solution	6
1.2.5	Preparation of 13% Pomegranate Rind Extract (PRE)	6
1.2.6	Antiviral (Anti-phage) Agent (Jassim et al. 1995)	6
1.3	Methods	7
1.3.1	Bacterial Stock Culture	7
1.3.2	Phage Hunting/Isolation Techniques	7
1.3.3	Testing for the Presence of Crude Wild Phages (Phage Spot Lysis Test)	8
1.3.4	Production of the Transient Phage Stock (Aldoori et al. 2015)	8
1.3.5	Optimization of the Phages Lytic Characteristics (Aldoori et al. 2015)	9
1.3.6	Vertical Optimization for Phage-Host Interaction	9
1.4	Notes	16
	References	18
<b>2</b>	<b>Bacteriophage and Antimicrobial Resistance</b>	<b>19</b>
2.1	Introduction	20
2.2	The Problem	21
2.3	AGPs: Challenges and Consequences	23
2.4	AMR Shared Between Livestock and Humans	25
2.5	Resistance Genes Not in a Vacuum	30
2.6	Mechanisms of Gene Transfer Between Bacteria	30

2.7	Phage, AMR and Virulence Factors in Bacteria Sharing . . . . .	31
2.8	Alternative to AGPs . . . . .	36
2.9	Phage Therapy . . . . .	38
2.10	Phage Therapy for Animals . . . . .	39
2.10.1	Advantages . . . . .	40
2.10.2	Disadvantages or ‘Challenges’ . . . . .	41
2.10.3	Obstacles . . . . .	41
2.11	Discussion and Conclusion . . . . .	43
	References . . . . .	44
<b>3</b>	<b>Bacteriophage Biocontrol in Poultry . . . . .</b>	<b>59</b>
3.1	Introduction . . . . .	60
3.1.1	Poultry as a Source of Food . . . . .	60
3.1.2	Poultry Safety . . . . .	60
3.1.3	Foodborne Bacterial Pathogens . . . . .	61
3.2	Sources of <i>Campylobacter</i> Infection for Poultry . . . . .	62
3.2.1	Campylobacteriosis . . . . .	64
3.3	Sources of <i>Salmonella</i> Infection for Poultry . . . . .	65
3.3.1	Salmonellosis . . . . .	66
3.4	Preventing <i>Campylobacter</i> and <i>Salmonella</i> in Poultry . . . . .	68
3.4.1	Campylobacter . . . . .	68
3.4.2	Salmonella . . . . .	69
3.5	Control Measures for <i>Campylobacter</i> and <i>Salmonella</i> . . . . .	71
3.6	Critical Control Points for Poultry Farms . . . . .	72
3.7	Ecology of <i>Campylobacter</i> and <i>Salmonella</i> Bacteriophages . . . . .	74
3.8	Phages for Biocontrol of <i>Campylobacter</i> and <i>Salmonella</i> . . . . .	75
3.8.1	Campylobacter Phages . . . . .	75
3.8.2	Salmonella Phages . . . . .	77
3.8.3	Summary . . . . .	79
3.9	Approval for Direct Use on Food Products . . . . .	79
3.10	Phage-Derived Enzymes . . . . .	81
3.11	Challenges: Phage Biocontrol in Food Industries . . . . .	81
3.12	Phage Biocontrol from Farm-to-Fork . . . . .	83
3.12.1	Background . . . . .	83
3.12.2	Phage Conceptual Applications from Farm-to-Fork . . . . .	84
3.12.3	Phage Biocontrol Applications . . . . .	85
3.13	Conclusion and Future Perspective . . . . .	98
	References . . . . .	100
