

# Contents

<b>1</b>	<b>Musielak-Orlicz Hardy Spaces</b> .....	1
1.1	Growth Functions .....	1
1.2	Musielak-Orlicz Hardy Spaces .....	16
1.3	Atomic Decompositions .....	19
1.3.1	Some Basic Properties of $H_m^\varphi(\mathbb{R}^n)$ and $H_{at}^{\varphi,q,s}(\mathbb{R}^n)$ .....	19
1.3.2	Calderón-Zygmund Decompositions.....	23
1.3.3	Atomic Decompositions of $H_m^\varphi(\mathbb{R}^n)$ .....	29
1.4	Dual Spaces.....	33
1.5	Class of Pointwise Multipliers for $BMO(\mathbb{R}^n)$ .....	39
1.6	Finite Atomic Decompositions and Their Applications .....	42
1.7	Notes and Further Results.....	56
<b>2</b>	<b>Maximal Function Characterizations of Musielak-Orlicz Hardy Spaces</b> .....	59
2.1	Musielak-Orlicz Fefferman-Stein Vector-Valued Inequality .....	59
2.2	Maximal Function Characterizations of $H^\varphi(\mathbb{R}^n)$ .....	65
2.3	Notes and Further Results.....	69
<b>3</b>	<b>Littlewood-Paley Function and Molecular Characterizations of Musielak-Orlicz Hardy Spaces</b> .....	71
3.1	Musielak-Orlicz Tent Spaces .....	71
3.2	Lusin Area Function and Molecular Characterizations of $H^\varphi(\mathbb{R}^n)$ .....	80
3.3	Littlewood-Paley Function Characterizations of $H^\varphi(\mathbb{R}^n)$ .....	97
3.4	Notes and Further Results.....	105
<b>4</b>	<b>Riesz Transform Characterizations of Musielak-Orlicz Hardy Spaces</b> .....	109
4.1	First Order Riesz Transform Characterizations .....	109
4.1.1	Musielak-Orlicz Hardy Spaces $H^\varphi(\mathbb{R}_+^{n+1})$ of Harmonic Functions .....	110

4.1.2	Musielak-Orlicz Hardy Spaces $\mathcal{H}^\varphi(\mathbb{R}_+^{n+1})$ of Harmonic Vectors .....	114
4.1.3	First Order Riesz Transform Characterizations .....	126
4.2	Higher Order Riesz Transform Characterizations .....	134
4.3	Notes and Further Results .....	143
<b>5</b>	<b>Musielak-Orlicz Campanato Spaces</b> .....	145
5.1	John-Nirenberg Inequality and Equivalent Characterizations .....	145
5.2	Dual Spaces of Musielak-Orlicz Hardy Spaces .....	158
5.3	$\varphi$ -Carleson Measure Characterization of $\mathcal{L}_{\varphi,1,s}(\mathbb{R}^n)$ .....	162
5.4	Notes and Further Results .....	166
<b>6</b>	<b>Intrinsic Square Function Characterizations of Musielak-Orlicz Hardy Spaces</b> .....	167
6.1	Intrinsic Square Functions .....	167
6.2	Some Estimates of Intrinsic Square Functions .....	169
6.3	Intrinsic Square Function Characterizations of $H^\varphi(\mathbb{R}^n)$ .....	178
6.4	Notes and Further Results .....	193
<b>7</b>	<b>Weak Musielak-Orlicz Hardy Spaces</b> .....	195
7.1	Maximal Function Characterizations of $WH^\varphi(\mathbb{R}^n)$ .....	195
7.1.1	Interpolation of $WL^\varphi(\mathbb{R}^n)$ .....	196
7.1.2	Maximal Function Characterizations of $WH^\varphi(\mathbb{R}^n)$ .....	200
7.2	Atomic and Molecular Characterizations of $WH^\varphi(\mathbb{R}^n)$ .....	205
7.2.1	Atomic Characterizations of $WH^\varphi(\mathbb{R}^n)$ .....	206
7.2.2	Molecular Characterizations of $WH^\varphi(\mathbb{R}^n)$ .....	217
7.3	Littlewood-Paley Function Characterizations of $WH^\varphi(\mathbb{R}^n)$ .....	228
7.4	Boundedness of Calderón-Zygmund Operators .....	247
7.5	Notes and Further Results .....	252
<b>8</b>	<b>Local Musielak-Orlicz Hardy Spaces</b> .....	255
8.1	Preliminaries .....	255
8.1.1	Some Basic Properties of Local Growth Functions .....	257
8.2	Local Musielak-Orlicz Hardy Spaces and Their Maximal Function Characterizations .....	263
8.3	Weighted Atomic Characterizations of $h^{\varphi,N}(\mathbb{R}^n)$ .....	271
8.4	Spaces of Finite Weighted Atoms .....	297
8.5	Dual Spaces of $h^\varphi(\mathbb{R}^n)$ with Applications to Pointwise Multipliers on Local BMO-Type Spaces .....	306
8.5.1	Dual Spaces of $h^\varphi(\mathbb{R}^n)$ .....	306
8.5.2	Characterizations of Pointwise Multipliers for $\text{bmo}^\phi(\mathbb{R}^n)$ .....	311
8.6	Boundedness of Local Riesz Transforms and $S_{1,0}^0(\mathbb{R}^n)$ Pseudo-Differential Operators .....	317
8.6.1	Local Riesz Transforms .....	317
8.6.2	$S_{1,0}^0(\mathbb{R}^n)$ Pseudo-Differential Operators .....	322
8.7	Notes and Further Results .....	326

<b>9</b>	<b>Musielak-Orlicz Besov-Type and Triebel-Lizorkin-Type Spaces</b> .....	329
9.1	Musielak-Orlicz Besov-Triebel-Lizorkin-Type Spaces.....	329
9.2	Characterizations via Peetre Maximal Functions .....	350
9.3	The Space $\dot{A}_{\varphi_1, \varphi_2, q}^{s, \tau}(\mathbb{R}^n)$ with Some Special $\tau$ .....	363
9.4	Smooth Atomic and Molecular Characterizations .....	368
9.5	Boundedness of Fourier Multipliers on $\dot{A}_{\varphi_1, \varphi_2, q}^{s, \tau}(\mathbb{R}^n)$ .....	382
9.6	Examples .....	391
9.7	Notes and Further Results.....	394
<b>10</b>	<b>Paraproducts and Products of Functions in <math>BMO(\mathbb{R}^n)</math> and <math>H^1(\mathbb{R}^n)</math> Through Wavelets</b> .....	397
10.1	The Space $H^{\log}(\mathbb{R}^n)$ and A Generalized Hölder Inequality .....	397
10.2	Prerequisites on Wavelets .....	400
10.3	Products of Functions in $H^1(\mathbb{R}^n)$ and $BMO(\mathbb{R}^n)$ .....	409
10.4	Div-Curl Lemma .....	419
10.5	Notes and Further Results.....	422
<b>11</b>	<b>Bilinear Decompositions and Commutators of Calderón-Zygmund Operators</b> .....	423
11.1	The Class $\mathcal{K}$ .....	424
11.2	Bilinear, Subbilinear Decompositions and Commutators .....	428
11.3	The Space $H_b^1(\mathbb{R}^n)$ .....	433
11.4	Boundedness of Commutators on Hardy Spaces .....	438
11.5	Commutators of Fractional Integrals .....	451
11.6	Notes and Further Results.....	452
	<b>References</b> .....	453
	<b>Index</b> .....	463

Real-Variable Theory of Musielak-Orlicz Hardy Spaces

Yang, D.; Liang, Y.; Ky, L.D.

2017, XIII, 468 p. 1 illus., Softcover

ISBN: 978-3-319-54360-4
