

Preface

This volume contains the papers presented at Inscrypt 2016: the 12th China International Conference on Information Security and Cryptology held during November 4–6, 2016, in Beijing, China. Inscrypt is a well-recognized annual international forum for security researchers and cryptographers to exchange ideas and present their work, and is held every year in China.

The conference received 93 submissions. Each submission was reviewed by two to four Program Committee members. The Program Committee, after some deliberation, decided to accept 32 papers. The overall acceptance rate is, therefore, about 34.4%.

Inscrypt 2016 was held in cooperation with the International Association of Cryptologic Research (IACR), and was co-organized by the State Key Laboratory of Information Security (SKLOIS) of the Chinese Academy of Sciences (CAS) and the Chinese Association for Cryptologic Research (CACR). The conference could not have been a success without the support of these organizations, and we sincerely thank them for their continued assistance and help.

We would also like to thank the authors who submitted their papers to Inscrypt 2016, and the conference attendees for their interest and support. We thank the Organizing Committee for their time and effort dedicated to arranging the conference. This allowed us to focus on selecting papers and dealing with the scientific program. We thank the Program Committee members and the external reviewers for their hard work in reviewing the submissions; the conference would not have been possible without their expert reviews. Finally, we thank the EasyChair system and its operators, for making the entire process of managing the conference convenient.
