1	Introduction	1
1.1	Urban Wastewater—a Reliable Alternative Source of Water	1
1.2	New Directions for (Waste)Water Governance	3
1.2.1	The Shift in Water Governance Paradigm	4
1.3	Water Scarcity Crisis—Is Source Substitution the Answer?	5
	References	7
2	Urban Wastewater Reuse—A Common Reality	9
2.1	Source Substitution—Response to Freshwater Scarcity Challenge	10
2.2	Urban Wastewater—Reuse Options and Applications	10
2.3	Urban Wastewater Reuse Experiences	14
2.3.1	Windhoek, Namibia	14
2.3.2	Singapore	15
2.3.3	United States of America	16
2.3.4	Europe	16
2.3.5	Israel	17
2.4	Challenges for Wastewater Management	17
2.4.1	Institutional Challenges	18
2.4.2	Public Perceptions and Acceptance	18
2.4.3	Market Imbalance	19
2.4.4	Financial Feasibility and Technicality	20
	References	21
3	Water Governance and Wastewater Reuse in Australia and India	23
3.1	Water Governance—Concept and Definitions	23
3.1.1	Attributes of Good Governance	24
3.1.2	Water Governance	25

3.2	Water Transition in Australia and India	26
3.2.1	Institutional Change and Water Transition	26
3.3	Wastewater Reuse in Australia and India	30
3.3.1	Australia	31
3.3.2	India	32
	References.	35
4	Theoretical Framework.	39
4.1	Theory of Institutions	39
4.1.1	Formal and Informal Institutions	41
4.1.2	Functions of Institutions	41
4.2	The Theory of Collective Action	43
4.2.1	Concept of Collective Action	43
4.2.2	Reasons for Collective Action.	44
4.3	Sustainability and the Theory of Social Capital	46
4.3.1	Social Sustainability	47
4.3.2	Social Capital—Meaning and Forms.	48
4.4	Water Governance—Public Versus Distributed Governance.	49
4.4.1	Distributed Governance.	50
4.5	Public–Private Partnerships (PPP) in the Water Sector.	52
4.5.1	Options for Public–Private Partnerships	55
	References.	55
5	Study Design and Methods.	61
5.1	Study Design	61
5.1.1	Sampling Design.	62
5.2	Data Collection Methods	65
5.2.1	Household Interview Survey.	66
5.2.2	Stakeholder Interviews	66
5.3	Survey Instruments.	67
5.4	Data Analysis.	67
5.5	Methodological and Analytical Limitations.	68
	References.	68
6	Public–Private Partnership Model for Wastewater Management	71
6.1	Background of the Virginia Pipeline Scheme (VPS).	71
6.2	Results and Discussion.	72
6.2.1	Socio-Demographic Profile of the Respondents.	72
6.2.2	General Awareness of Wastewater Usage and the Scheme.	72
6.2.3	Framework of Partnerships	73
6.2.4	Irrigators’ Perception of Collective Action and Participation	75
6.2.5	Irrigators’ Perception of Trust and Solidarity	77
6.2.6	Irrigators’ Perception of the ‘Rules-in-Use’.	78

6.3	Conclusions	80
	References.	81
7	Private Sector Participation in Wastewater Management	83
7.1	Project Background	83
7.2	Private Sector Involvement and the Willunga Pipeline Scheme . . .	84
7.3	Results and Discussion	85
7.3.1	Socio-demographic Profile and Irrigation Details of the Respondents	85
7.3.2	Reason for Implementation of the Scheme and General Awareness.	86
7.3.3	Irrigators' Knowledge of the Operational Details of the Scheme.	87
7.3.4	Irrigators' Knowledge and Level of Trust.	88
7.4	Conclusion	90
	References.	90
8	Informal and Uncontrolled Use of Wastewater for Agriculture. . . .	93
8.1	Field Settings	93
8.1.1	Channeling of Wastewater for Irrigation	94
8.2	Results and Discussions	96
8.2.1	Socio-demographic Profile and Irrigation Details of the Respondents	98
8.2.2	Perceptions of WUA Leaders About Water Management	98
8.3	Conclusions	102
	References.	103
9	Lessons Learned and Way Forward	105
9.1	Lessons Learned	106
9.1.1	Wastewater Policy Framework in Australia and India	108
9.1.2	Institutional and Social Environments for Wastewater Use.	110
9.2	Wastewater Reuse Schemes and Social Sustainability	114
9.3	The Way Forward—Policy Options	115

Governance of Urban Wastewater Reuse for Agriculture
A Framework for Understanding and Action in
Metropolitan Regions

Keremane, G.

2017, XI, 117 p. 10 illus., Softcover
