# Contents

<b>1</b>	<b>Introduction</b> . . . . .	<b>1</b>
<b>2</b>	<b>Keflavik to Reykjavik</b> . . . . .	<b>11</b>
<b>3</b>	<b>Reykjavik</b> . . . . .	<b>21</b>
<b>4</b>	<b>Reykjavik to Thingvellir (Þingvellir)</b> . . . . .	<b>29</b>
4.1	Esja—Spreading Rate and Structure . . . . .	29
4.2	Magma Chamber and Collapse Caldera . . . . .	38
4.3	Subsiding Crustal Segment—A Graben . . . . .	44
<b>5</b>	<b>Thingvellir (Þingvellir)</b> . . . . .	<b>49</b>
5.1	Almannagja (Almannagjá) . . . . .	49
5.2	Peningagja and Flosagja (Peningagjá and Flosagjá) . . . . .	59
5.3	How Do the Fractures Form? . . . . .	64
5.4	How Deep Are the Fractures? . . . . .	67
5.5	When Will the Next Eruption Occur? . . . . .	70
<b>6</b>	<b>Thingvellir (Þingvellir) to Geysir</b> . . . . .	<b>71</b>
6.1	Hrafnagja (Hrafnagjá) . . . . .	71
6.2	Botnsúlur and Ármannsfell (Botnsúlur and Ármannsfell). . . . .	73
6.3	Hrafnabjörg Table Mountain. . . . .	75
6.4	Skjaldbreidur (Skjaldbreiður) Lava Shield . . . . .	78
6.5	Laugarvatnshellar and Hyaloclastites . . . . .	80
6.6	The Importance of Power Laws in Natural (and Human) Processes . . . . .	83
6.7	Pillow Lavas . . . . .	86

<b>7</b>	<b>Geysir</b> . . . . .	93
7.1	Mechanism of Eruption . . . . .	95
7.2	Geothermal Fields . . . . .	100
7.3	Geysers and Earthquakes . . . . .	101
7.4	Heat Sources . . . . .	102
<b>8</b>	<b>Gullfoss</b> . . . . .	105
8.1	Why Has Gullfoss Two Oblique Steps? . . . . .	105
8.2	How Did the Canyon Evolve? . . . . .	109
<b>9</b>	<b>Gullfoss-Kerid (Kerið)-Reykjavik</b> . . . . .	113
9.1	Earthquake Faults and Mountain Shapes . . . . .	114
9.2	Pit Crater . . . . .	117
9.3	Rockfalls and Earthquakes . . . . .	120
9.4	Lava Erupted in the Year 1000 . . . . .	122
9.5	The Youngest Lava Flow to Have Entered Reykjavik . . . . .	124
<b>10</b>	<b>Other One-Day Geological Excursions from Reykjavik</b> . . . . .	129
<b>11</b>	<b>Reykjavik-Hvalfjörður (Hvalfjörður)</b> . . . . .	133
11.1	Magma Transport Inside a Volcano . . . . .	134
11.2	Volcanic Systems and Dike Swarms . . . . .	138
11.3	Sandpit, Secondary Minerals, and Dike Propagation . . . . .	140
11.4	Difference Between Eruptive Fractures (Dikes) and Earthquake Fractures (Faults) . . . . .	148
11.5	Landscapes, Landforms, and the Hvalfjörður Volcano . . . . .	152
11.6	What Does the Thingvellir Graben Look like at Great Depth? . . . . .	159
11.7	Vertical Section Through Two Lava Shields . . . . .	163
11.8	Table Mountain Hvalfell . . . . .	167
<b>12</b>	<b>Reykjavik-Hengill</b> . . . . .	173
12.1	Hyaloclastite Ridge . . . . .	174
12.2	Feeder-Dike . . . . .	177
12.3	Geology of Hengill—Overview . . . . .	179
12.4	Geothermy . . . . .	188
12.5	The Nesjahraun Lava . . . . .	192
12.6	Major Faults . . . . .	196
<b>13</b>	<b>Reykjavik-Kleifarvatn-Reykjanes</b> . . . . .	201
13.1	Lava Channels . . . . .	202
13.2	Sveifluhals (Sveifluháls) and Kleifarvatn . . . . .	206

13.3	Kleifarvatn—Controlled by Fractures . . . . .	209
13.4	Fracture Sets and Volcanic Eruptions . . . . .	215
13.5	The Structure of Sveifluhals (Sveifluháls) . . . . .	217
13.6	Deformation Bands and Fluid Flow . . . . .	218
13.7	Geothermal Fields . . . . .	222
13.8	Explosion Craters—Maars . . . . .	225
13.9	Table Mountain Cut in Half . . . . .	227
13.10	Young Lava Flow and a Graben . . . . .	231
13.11	Volcanic Fissure and Flow Channelling . . . . .	239
13.12	Reykjanes—Lava Shields and Lava Fields . . . . .	243
13.13	An 800-Year-Old Fissure Eruption . . . . .	248
13.14	Details of 800-Year-Old Feeder and Non-feeder Dikes . . . . .	251
13.15	Bridge Between Two Continents . . . . .	257
<b>14</b>	<b>Reykjavík-Eyjafjallajökull-Reynisfjara . . . . .</b>	<b>261</b>
14.1	Largest Lava Flow Erupted on Earth in the Past 10 Thousand Years . . . . .	261
14.2	Earthquake Fractures from the Year 2000 . . . . .	264
14.3	Hekla Volcano . . . . .	269
14.4	Seljalandsfoss Waterfall . . . . .	273
14.5	Eyjafjallajökull Volcano—Internal Structure and the 2010 Eruptions . . . . .	276
14.6	Skogar foss (Skógarfoss) Waterfall . . . . .	285
14.7	Petursey (Pétursey)—An Island on Dry Land . . . . .	287
14.8	A Village Threatened by the Eruptions of the Katla Volcano . . . . .	289
14.9	Myrdalssandur (Mýrdalssandur) . . . . .	291
14.10	How Large Are the Outburst Floods? . . . . .	294
14.11	Katla Volcano . . . . .	295
14.12	The Beach of Reynisfjara . . . . .	297
	<b>Glossary . . . . .</b>	<b>307</b>
	<b>References and Further Reading . . . . .</b>	<b>323</b>
	<b>Index . . . . .</b>	<b>325</b>

The Glorious Geology of Iceland's Golden Circle

Gudmundsson, Á.

2017, XIII, 334 p. 216 illus. in color., Softcover

ISBN: 978-3-319-55151-7
