Contents

1 Functional Implications of Cardiac Mitochondria Clustering 1
Felix T. Kurz, Miguel A. Aon, Brian O'Rourke, and Antonis A. Armoundas

2 Mitochondrial Calcium Handling in Physiology and Disease 25
Veronica Granatiero, Diego De Stefani, and Rosario Rizzuto

3 The In Vivo Biology of the Mitochondrial Calcium Uniporter 49
Julia C. Liu, Randi J. Parks, Jie Liu, Justin Stares, Ilsa I. Rovira, Elizabeth Murphy, and Toren Finkel

4 Mitochondrial Bioenergetics and Dysfunction in Failing Heart 65
Freya L. Sheeran and Salvatore Pepe

5 Mitochondrial Mutations in Cardiac Disorders 81
Sung Ryul Lee and Jin Han

6 Mitochondrial Function in Non-ischemic Heart Failure 113
Anisha A. Gupte and Dale J. Hamilton

7 Mitochondria in Ischemic Heart Disease 127
L. Maximilian Buja

8 Mitochondrial Bioenergetics During Ischemia and Reperfusion 141
Alicia E. Consolini, María I. Ragone, Patricia Bonazzola, and Germán A. Colareda

9 Mechanistic Role of mPTP in Ischemia-Reperfusion Injury 169
Giampaolo Morciano, Massimo Bonora, Gianluca Campo, Giorgio Aquila, Paola Rizzo, Carlotta Giorgi, Mariusz R. Wieckowski, and Paolo Pinton

10 Functional Role of Mitochondria in Arrhythmogenesis 191
Jessica Gambardella, Daniela Sorriento, Michele Ciccarelli, Carmine Del Giudice, Antonella Fiordelisi, Luigi Napolitano, Bruno Trimarco, Guido Iaccarino, and Gaetano Santulli

11 Mitochondria and Cardiac Hypertrophy 203
Heberty di Tarso Fernandes Facundo, Robert Eli Brainard, Francisco Rodrigo de Lemos Caldas, and Aline Maria Brito Lucas

12 Connexin 43 and Mitochondria in Cardiovascular Health and Disease 227
Kerstin Boengler and Rainer Schulz

13 Mitochondrial Mechanosensor Microdomains in Cardiovascular Disorders 247
Michele Miragoli and Aderville Cabassi

14 Mechanistic Role of Thioredoxin 2 in Heart Failure 265
Chaofei Chen, Haixuan Chen, Huanjiao Jenny Zhou, Weidong Ji, and Wang Min

15 Mitochondria in Structural and Functional Cardiac Remodeling 277
Natalia Torrealba, Pablo Aranguiz, Camila Alonso, Beverly A. Rothermel, and Sergio Lavandero

16 Functional Role of Nox4 in Autophagy 307
Maurizio Forte, Silvia Palmerio, Derek Yee, Giacomo Frati, and Sebastiano Sciarretta

17 Mitochondrial Ubiquitin Ligase in Cardiovascular Disorders 327
Tao Yu, Yinfeng Zhang, and Pei-feng Li

18 Nitrite-Nitric Oxide Signaling and Cardioprotection 335
Matthias Totzeck, Ulrike B. Hendgen-Cotta, and Tienush Rassaf

19 Peripheral Blood Mitochondrial DNA and Myocardial Function 347
Tatiana Kuznetsova and Judita Knez

20 Mitochondrial Proton Leak Plays a Critical Role in Pathogenesis of Cardiovascular Diseases 359
Jiali Cheng, Gayani Nanayakkara, Ying Shao, Ramon Cueto, Luqiao Wang, William Y. Yang, Ye Tian, Hong Wang, and Xiaofeng Yang

21 Mitochondria and Angiogenesis 371
Raluca Marcu, Ying Zheng, and Brian J. Hawkins

22 High-Density Lipoprotein Regulation of Mitochondrial Function 407
C. Roger White, Geeta Datta, and Samantha Giordano

23 MitomiRs Keep the Heart Beating 431
Samarjit Das, Hannah R. Vasanthi, and Ramesh Parjapath

24 Mitochondrial Dysfunction in Cardiovascular Aging 451
Charles L. Hoppel, Edward J. Lesnefsky, Qun Chen, and Bernard Tandler

25 Insulin Resistance and Mitochondrial Dysfunction 465
Alba Gonzalez-Franquesa and Mary-Elizabeth Patti

26 Mechanistic Role of Kinases in the Regulation of Mitochondrial Fitness 521
Daniela Sorriento, Jessica Gambardella, Antonella Fiordelisi, Bruno Trimarco, Michele Ciccarelli, Guido Iaccarino, and Gaetano Santulli

27 Mitochondria Damage and Kidney Disease 529
Pu Duann and Pei-Hui Lin

28 Mitochondrial Dysfunction in the Diabetic Kidney 553
Kumar Sharma

29 Prohibitin Signaling at the Kidney Filtration Barrier 563
Christina Ising and Paul T. Brinkkoetter

30 Mitochondrial Heteroplasmy 577
George B. Stefano, Christina Bjenning, Fuzhou Wang, Nan Wang, and Richard M. Kream

31 Mitochondrial Transplantation in Myocardial Ischemia and Reperfusion Injury 595
Borami Shin, Douglas B. Cowan, Sitaram M. Emani, Pedro J. del Nido, and James D. McCully

32 Mitochondria-Targeted Antioxidants for the Treatment of Cardiovascular Disorders 621
Hyoung Kyu Kim and Jin Han
