

Contents

Node-Centric Detection of Overlapping Communities in Social Networks	1
Yehonatan Cohen, Danny Hendler, and Amir Rubin	
Community Structures Evaluation in Complex Networks: A Descriptive Approach	11
Vinh-Loc Dao, Cécile Bothorel, and Philippe Lenca	
Do Network Models Just Model Networks? On the Applicability of Network-Oriented Modeling	21
Jan Treur	
Visibility of Nodes in Network Growth Models	35
Siddharth Pal, Soham De, Tanmoy Chakraborty, and Raluca Gera	
Topological Data Analysis of Critical Transitions in Financial Networks	47
Marian Gidea	
Modeling and Analysis of Glass Ceiling and Power Inequality in Bi-populated Societies	61
Chen Avin, Zvi Lotker, Yinon Nahum, and David Peleg	
Elites in Social Networks: An Axiomatic Approach	75
Chen Avin, Zvi Lotker, David Peleg, Yvonne-Anne Pignolet, and Itzik Turkel	
Ranking Scientific Papers on the Basis of Their Citations Growing Trend	89
Michaël Waumans and Hugues Bersini	

Towards Network Economics: The Problem of the Network Modus of Value	103
Alexey A. Baryshev	
Open Questions in Multidimensional Multilevel Network Science	115
Jeffrey H. Johnson	
Index	129

3rd International Winter School and Conference on
Network Science

NetSci-X 2017

Shmueli, E.; Barzel, B.; Puzis, R. (Eds.)

2017, VI, 130 p. 32 illus., 17 illus. in color., Hardcover

ISBN: 978-3-319-55470-9
