
Contents

1	Critical Concepts in Soft Tissue Pathology	1
1.1	General Principles of Classification	1
1.2	Acquisition, Handling, and Processing of Soft Tissue Specimens	4
	References	6
2	Histologic Examination and Ancillary Studies in Soft Tissue Pathology	7
2.1	Pathologist Approach to Diagnosis	7
2.2	Diagnostic Ancillary Studies	15
2.2.1	Immunohistochemistry	15
2.2.2	Karyotyping	15
2.2.3	Molecular Fluorescence In Situ Hybridization	18
2.2.4	Reverse transcription PCR	18
2.3	Intraoperative Consultation	18
	References	21
3	Grading, Staging, and Reporting of Soft Tissue Tumors	23
3.1	Assigning a Pathologic Grade to Soft Tissue Tumors	23
3.2	Assigning a Pathologic Stage to Soft Tissue Tumors	25
3.3	Interpreting a Soft Tissue Pathology Report	25
	References	28
4	Lipomatous Tumors	29
4.1	Lipoma	29
4.2	Angiolipoma	31
4.3	Spindle Cell/Pleomorphic Lipoma	33
4.4	Hibernoma	35
4.5	Lipoblastoma	36
4.6	Atypical Lipomatous Tumor/Well-Differentiated Liposarcoma	37
4.7	Dedifferentiated Liposarcoma	40
4.8	Myxoid Liposarcoma	41
4.9	Pleomorphic Liposarcoma	43
	References	45

5	Fibroblastic/Myofibroblastic Tumors	49
5.1	Nodular Fasciitis and Similar Lesions	49
5.2	Fibroma of Tendon Sheath	53
5.3	Nuchal-Type Fibroma	54
5.4	Gardner-Associated Fibroma	56
5.5	Elastofibroma	57
5.6	Superficial Fibromatosis	59
5.7	Deep (Desmoid-Type) Fibromatosis	60
5.8	Solitary Fibrous Tumor	62
5.9	Inflammatory Myofibroblastic Tumor	65
5.10	Dermatofibrosarcoma Protuberans	67
5.11	Congenital/Infantile Fibrosarcoma	70
5.12	Low-Grade Fibromyxoid Sarcoma	71
5.13	Myxofibrosarcoma	74
5.14	Adult-Type Fibrosarcoma	76
	References	78
6	Fibrohistiocytic Lesions	81
6.1	Fibrous Histiocytoma	81
6.2	Solitary Xanthogranuloma	85
6.3	Tenosynovial Giant Cell Tumor, Localized Type	87
6.4	Tenosynovial Giant Cell Tumor, Diffuse Type	89
	References	91
7	Smooth Muscle and Perivascular Tumors	93
7.1	Glomus Tumor	93
7.2	Cutaneous Leiomyoma	97
7.3	Deep Leiomyoma	99
7.4	Cutaneous Leiomyosarcoma	101
7.5	Deep Leiomyosarcoma	103
	References	106
8	Skeletal Muscle Tumors	109
8.1	Rhabdomyoma	109
8.2	Embryonal Rhabdomyosarcoma	112
8.3	Alveolar Rhabdomyosarcoma	115
8.4	Pleomorphic Rhabdomyosarcoma	118
	References	121
9	Neural and Nerve Sheath Lesions	123
9.1	Schwannoma	123
9.2	Neurofibroma	126
9.3	Perineurioma	130
9.4	Granular Cell Tumor	133
9.5	Malignant Peripheral Nerve Sheath Tumor	135
	References	138

10	Vascular Lesions	139
10.1	Kaposi Sarcoma	139
10.2	Epithelioid Hemangioendothelioma	143
10.3	Kaposiform Hemangioendothelioma	145
10.4	Angiosarcoma	148
	References	152
11	Cartilaginous and Osseous Tumors of Soft Tissue	155
11.1	Extraskelatal Chondroma	155
11.2	Extraskelatal Mesenchymal Chondrosarcoma	158
11.3	Extraskelatal Osteosarcoma	160
	References	162
12	Tumors of Uncertain Differentiation	163
12.1	Intramuscular Myxoma	163
12.2	Superficial Angiomyxoma	165
12.3	Hemosiderotic Fibrolipomatous Tumor	167
12.4	Myoepithelioma of Soft Tissue	169
12.5	Ossifying Fibromyxoid Tumor	171
12.6	Alveolar Soft Part Sarcoma	173
12.7	Clear Cell Sarcoma of Soft Tissue	175
12.8	Extraskelatal Ewing Sarcoma	177
12.9	Desmoplastic Small Round Cell Tumor	179
12.10	PEComa (and Similar Neoplasms)	180
12.11	Epithelioid Sarcoma	182
12.12	Extrarenal Rhabdoid Tumor	185
12.13	Synovial Sarcoma	186
12.14	Extraskelatal Myxoid Chondrosarcoma	188
12.15	Undifferentiated High-Grade Pleomorphic Sarcoma	190
	References	192
13	Gastrointestinal Stromal Tumor	197
13.1	Introduction	197
13.2	Gastrointestinal Stromal Tumor	197
	References	201
	Index	203

Soft Tissue Pathology for Clinicians

Perry, K.

2017, XI, 207 p. 211 illus. in color., Softcover

ISBN: 978-3-319-55653-6
