

Contents

1	Introduction	1
	References.	6
2	Nomenclatures and Taxonomy	7
2.1	Introduction	7
2.2	Morphometric Analysis.	9
2.3	Data Set	12
2.4	Bivariate Analyses	14
2.5	Multivariate Analyses	17
2.6	Morphology	25
2.7	Discussion	27
2.8	Systematic Paleontology	28
2.9	Conclusions	53
	References.	53
3	Museum and Collections	61
	References.	69
4	Phylogeny	73
	References.	81
5	Biostratigraphy and Biogeography	85
5.1	Biochronological Units	87
5.2	Time Scale and Palaeoclimatic Framework.	89
5.3	Biogeography of Equini	91
	References.	95
6	Ancient Feeding Ecology and Niche Differentiation of Pleistocene Horses	101
6.1	Stable Isotope Analysis of Fossil Horses	102
6.1.1	Stable Isotope Analyses on Mammalian Bioapatite and Collagen.	102

6.1.2	Materials and Methods	104
6.1.3	Paleoecology of Horse from South American	104
6.2	Body Mass Evolution and Diversification	
	Within South American Horses	107
6.2.1	Predicting Mass Estimates.	108
	References.	114
7	Horses and Megafauna Extinction	119
7.1	Human Arrival Times.	121
7.2	Latest Pleistocene Climate Change	123
7.3	Vegetation Changes and QME	123
7.4	Horses Extinction Evidence	125
	References.	128

	Appendix B	139

Fossil Horses of South America

Phylogeny, Systemics and Ecology

Prado, J.L.; Alberdi, M.T.

2017, X, 150 p. 44 illus., 23 illus. in color., Hardcover

ISBN: 978-3-319-55876-9
