## Invited Talks and Tutorials

Fourier Multispectral Imaging: Measuring Spectra, One Sinusoid at a Time. . . .	3
<i>Keigo Hirakawa</i>	
Computational Print Control. . . . .	13
<i>Ján Morovič, Peter Morovič, Jordi Arnabat, Xavier Fariña, Hector Gomez, Joan Enric Garcia, and Pere Gasparin</i>	
Color Vision Is a Spatial Process: The Retinex Theory . . . . .	26
<i>Michela Lecca</i>	

## Color Image Processing

Video Smoke Removal Based on Smoke Imaging Model and Space-Time Pixel Compensation . . . . .	43
<i>Shiori Yamaguchi, Keita Hirai, and Takahiko Horiuchi</i>	
Similarities and Differences in the Mathematical Formalizations of the Retinex Model and Its Variants . . . . .	55
<i>Edoardo Provenzi</i>	
T-Rex: A Milano Retinex Implementation Based on Intensity Thresholding . . . . .	68
<i>Michela Lecca, Carla M. Modena, and Alessandro Rizzi</i>	

## Color Image Quality

iFAS: Image Fidelity Assessment . . . . .	83
<i>B. Ortiz-Jaramillo, L. Platasa, and W. Philips</i>	
A Multidistortion Database for Image Quality. . . . .	95
<i>Silvia Corchs and Francesca Gasparini</i>	
A Complexity-Based Image Analysis to Investigate Interference Between Distortions and Image Contents in Image Quality Assessment. . . . .	105
<i>Gianluigi Ciocca, Silvia Corchs, and Francesca Gasparini</i>	

**Color In Digital Cultural Heritage**

Visualization of Subsurface Features in Oil Paintings Using High-Resolution Visible and Near Infrared Scanned Images . . . . .	125
<i>Jay Arre Toque, Koji Okumura, Yashuhide Shimbata, and Ari Ide-Ektessabi</i>	
A Simple Scanner for High Resolution Imaging of Wall Paintings . . . . .	135
<i>Kyohei Yoshida, Peng Wang, Jay Arre Toque, Masahiro Toiya, and Ari Ide-Ektessabi</i>	
Visualizing Lost Designs in Degraded Early Modern Tapestry Using Infra-red Image . . . . .	144
<i>Masaru Tsuchida, Keiji Yano, Kaoru Hiramatsu, and Kunio Kashino</i>	
A Novel Scanning Technique for Imaging of Gold and Silver Foils Used in Art Works . . . . .	150
<i>Ryo Kanai, Yoshiharu Kowada, Peng Wang, Masahiro Toiya, Jay Arre Toque, and Ari Ide-Ektessabi</i>	
A Transmission Type Scanning System for Ultra High Resolution Scanning . . . . .	163
<i>Tatsuya Komiyama, Daichi Tsunemichi, Peng Wang, Yusuke Isobe, and Ari Ide-Ektessabi</i>	
When It Is Not Only About Color: The Importance of Hyperspectral Imaging Applied to the Investigation of Paintings . . . . .	175
<i>Tatiana Vitorino, Andrea Casini, Costanza Cucci, Marcello Picollo, and Lorenzo Stefani</i>	

**Spectral Imaging**

A Database of Spectral Filter Array Images that Combine Visible and NIR . . .	187
<i>Pierre-Jean Lapray, Jean-Baptiste Thomas, and Pierre Gouton</i>	
Analytical Survey of Highlight Detection in Color and Spectral Images . . . .	197
<i>Haris Ahmad Khan, Jean-Baptiste Thomas, and Jon Yngve Hardeberg</i>	

**Color Characterization**

Characterization by Hyperspectral Imaging and Hypercolor Gamut Estimation for Structural Color Prints . . . . .	211
<i>Mathieu Hébert, Juan Martínez-García, Thomas Houllier, Hayk Yepremian, Nicolas Crespo-Monteiro, Francis Vocanson, Alain Trémeau, and Nathalie Destouches</i>	

Fast-Calibration Reflectance-Transmittance Model to Compute Multiview Recto-Verso Prints . . . . .	223
<i>Serge Mazauric, Thierry Fournel, and Mathieu Hébert</i>	
Image Contrast Measure as a Gloss Material Descriptor . . . . .	233
<i>Jean-Baptiste Thomas, Jon Yngve Hardeberg, and Gabriele Simone</i>	
<b>Color Image Analysis</b>	
Artistic Photo Filtering Recognition Using CNNs . . . . .	249
<i>Simone Bianco, Claudio Cusano, and Raimondo Schettini</i>	
Hand-Crafted vs Learned Descriptors for Color Texture Classification . . . . .	259
<i>Paolo Napoletano</i>	
Improved Opponent Colour Local Binary Patterns for Colour Texture Classification . . . . .	272
<i>Francesco Bianconi, Raquel Bello-Cerezo, Paolo Napoletano, and Francesco Di Maria</i>	
<b>Author Index</b> . . . . .	283
