Clinical Case 1: Patient with Hypertension and Left Atrial Enlargement	1
1.1 Clinical Case Presentation	1
Family History	1
Clinical History	1
Physical Examination	2
Haematological Profile	2
Blood Pressure Profile	3
12-Lead Electrocardiogram	3
Vascular Ultrasound	3
Echocardiogram	3
Current Treatment	4
Diagnosis	4
Global Cardiovascular Risk Stratification	5
Treatment Evaluation	5
Prescriptions	5
1.2 Follow-Up (Visit 1) at 6 Weeks	5
Physical Examination	5
Blood Pressure Profile	6
Current Treatment	6
12-Lead Electrocardiogram	6
ECG Holter Monitoring	7
Diagnosis	7
Prescriptions	7
1.3 Follow-Up (Visit 2) at 10 Weeks	7
Physical Examination	8
Blood Pressure Profile	8
Haematological Profile	8
Current Treatment	8

	Trans-oesophageal Echocardiogram (TEE)	9
	Electrical Cardioversion	9
	Prescriptions	9
1.4	Follow-Up (Visit 3) at 1 Year	10
	Physical Examination.	10
	Blood Pressure Profile.	10
	Echocardiogram	10
	12-Lead Electrocardiogram	11
	Current Treatment	11
	Prescriptions	11
1.5	Discussion	12
	References	13

**Clinical Case 2: Patient with Essential Hypertension
and Aortic Root Dilatation**

		15
2.1	Clinical Case Presentation	15
	Family History	16
	Clinical History.	16
	Physical Examination.	16
	Haematological Profile	17
	Blood Pressure Profile.	17
	12 Lead ECG	18
	Echocardiogram	18
	Vascular Ultrasound.	19
	Diagnosis	19
	Global Cardiovascular Risk Stratification	20
	Treatment Evaluation	20
	Prescriptions	20
2.2	Follow-Up (Visit 1) at 6 Weeks.	21
	Physical Examination.	21
	Lipid Profile	21
	Blood Pressure Profile.	21
	12 Lead ECG	21
	Diagnosis	22
	Treatment Evaluation	22
	Prescriptions	22
2.3	Follow-Up (Visit 2) at 3 Months.	23
	Physical Examination.	23
	Blood Pressure Profile.	23

	Lead Electrocardiogram	23
	Echocardiogram	24
	CT with Contrast Medium	24
	Diagnosis	24
	Treatment Evaluation	25
	Prescriptions	25
2.4	Follow-Up (Visit 3) at 6 Months	25
	Physical Examination	25
	Blood Pressure Profile	25
	Lipid Profile	26
	Lead Electrocardiogram	26
	Echocardiogram	26
	Diagnosis	26
	Treatment Evaluation	27
	Prescriptions	27
2.5	Follow-Up (Visit 4) at 1 Year	27
	Physical Examination	27
	Haematological Profile	27
	Blood Pressure Profile	28
	Lead Electrocardiogram	28
	Echocardiogram	28
	Diagnosis	29
	Current Treatment	29
	Treatment Evaluation	29
	Prescriptions	29
2.6	Discussion	29
	References	31

	Clinical Case 3: Patient with Essential Hypertension and Diastolic Heart Failure	33
3.1	Clinical Case Presentation	33
	Family History	33
	Clinical History	34
	Physical Examination	34
	Haematological Profile	34
	Blood Pressure Profile	35
	12 Lead ECG	35
	Chest X-Ray	36
	Echo	36

	Diagnosis	37
	Treatment Evaluation	37
	Prescriptions	37
3.2	Follow-Up (Visit 1) at 6 Weeks	38
	Physical Examination	38
	Lipid Profile	38
	Blood Pressure Profile	38
	Chest X-Ray	39
	Diagnosis	39
	Treatment Evaluation	39
	Prescriptions	39
3.3	Follow-Up (Visit 2) at 3 Months	39
	Physical Examination	39
	Renal Function	40
	Treatment Evaluation	40
	Prescriptions	40
3.4	Follow-Up (Visit 3) at 6 Months	40
	Physical Examination	40
	Blood Pressure Profile	41
	12 Lead ECG	41
	Echo	41
	Current Treatment	42
	Treatment Evaluation	42
	Prescriptions	42
3.5	Follow-Up (Visit 4) at 1 Year	43
	Physical Examination	43
	Haematological Profile	43
	Blood Pressure Profile	43
	Lead Electrocardiogram	44
	Treatment Evaluation	44
	Prescriptions	44
3.6	Discussion	44
	References	45

Clinical Case 4: Patient with Essential Hypertension and Systolic Heart Failure

4.1	Clinical Case Presentation	47
	Family History	48
	Clinical History	48
	Physical Examination	48

	Haematological Profile	49
	Blood Pressure Profile.....	49
	Lead Electrocardiogram	49
	Chest X-Ray	50
	Echocardiography	50
	Vascular Ultrasound.....	51
	Diagnosis	52
	Treatment Evaluation	52
	Prescriptions	52
4.2	Follow-Up (Visit 1) at 6 Weeks.....	53
	Physical Examination.....	53
	Lipid Profile	53
	Blood Pressure Profile.....	53
	Lead Electrocardiogram	53
	Diagnosis	54
	Treatment Evaluation	54
4.3	Follow-Up (Visit 2) at 3 Months.....	54
	Physical Examination.....	54
	Echo and RM	54
	Treatment Evaluation	55
	Prescriptions	55
4.4	Follow-Up (Visit 3) at 1 Year	55
	Physical Examination.....	55
	Haematological Profile	56
	Blood Pressure Profile.....	56
	Lead Electrocardiogram	56
	ICD Control	56
	Chest X-Ray	56
	Echocardiography	57
	Current Treatment	57
	Treatment Evaluation	58
	Prescriptions	58
4.5	Discussion	58
	References	59

	Clinical Case 5: Patient with Essential Hypertension and Left Ventricular Enlargement	61
5.1	Clinical Case Presentation.....	61
	Family History	61
	Clinical History.....	61

	Comorbidities	62
	Physical Examination.	62
	Haematological Profile	62
	Blood Pressure Profile.	63
	12-Lead ECG	63
	Echocardiogram	64
	Carotid Ultrasound	64
	Current Treatment	64
	Diagnosis	64
	Global Cardiovascular Risk Stratification	65
	Treatment Evaluation	65
	Prescriptions	65
5.2	Follow-Up (Visit 1) After 6 Weeks.	65
	Physical Examination.	66
	Blood Pressure Profile.	66
	Current Treatment	66
	Diagnostic Tests for Organ Damage or Associated Clinical Conditions.	66
	Diagnosis	66
	Global Cardiovascular Risk Stratification	66
	Prescriptions	67
5.3	Follow-Up (Visit 2) After 3 Months.	67
	Physical Examination.	67
	Blood Pressure Profile.	67
	Current Treatment	67
	Stress Test	67
	Haematological Profile	68
	Prescriptions	68
5.4	Follow-Up (Visit 3) at 1 Year	68
	Physical Examination.	69
	Blood Pressure Profile.	69
	Haematological Profile	69
	12-Lead ECG	69
	Echocardiogram	70
	Carotid Ultrasound	70
	Current Treatment	71
	Prescriptions	71

5.5 Discussion	71
References	72

Clinical Case 6: Patient with Hypertension and Right Ventricular Enlargement	75
6.1 Clinical Case Presentation.....	75
Family History	76
Clinical History.....	76
Physical Examination.....	76
Haematological Profile	77
Blood Pressure Profile.....	77
12-Lead ECG	78
Chest X-Ray	78
Echocardiography	79
Vascular Ultrasound.....	81
Lower Limbs.....	81
Diagnosis.....	81
Treatment Evaluation	82
Prescriptions	82
6.2 Follow-Up (Visit 1) at 6 Weeks.....	82
Physical Examination.....	82
Blood Pressure Profile.....	82
12-Lead Electrocardiogram	83
Cardiac Catheterization.....	83
Diagnosis.....	83
Treatment Evaluation	83
6.3 Follow-Up (Visit 2) at 3 Months.....	83
Physical Examination.....	84
Blood Pressure Profile.....	84
Treatment Evaluation	84
Prescriptions	84
6.4 Follow-Up (Visit 3) at 1 Year	84
Physical Examination.....	84
Haematological Profile	85
Blood Pressure Profile.....	85
Lead Electrocardiogram	85
Echocardiography	85

Current Treatment	86
Treatment Evaluation	86
Prescriptions	86
