# Contents

<b>1 Evolution of Pituitary Surgery and the Transsphenoidal Approach . . . . .</b>	<b>1</b>
Luke Smith, Gautam U. Mehta, and Russell R. Lonser	
<b>2 The History of Trans-sphenoidal Surgery for Pituitary Tumours . . . . .</b>	<b>11</b>
James A.J. King and Andrew H. Kaye	
<b>3 Principles and Pitfalls of Anesthesia for Transsphenoidal Surgery . . . . .</b>	<b>27</b>
Lauren K. Dunn and Edward C. Nemergut	
<b>4 Operative Indications and Pitfalls in Patient Selection for Surgery of Pituitary Tumors . . . . .</b>	<b>43</b>
Chikezie Eseonu, Christina Jackson, and Alfredo Quinones-Hinojosa	
<b>5 The Perioperative and Postoperative Care for Pituitary Patients . . . . .</b>	<b>59</b>
Saira Khan and Roberto Salvatori	
<b>6 Neuro-ophthalmology of Pituitary Tumors . . . . .</b>	<b>71</b>
Robert M. Mallery and Sashank Prasad	
<b>7 Rhinologic Evaluation of Patients Undergoing Transsphenoidal Surgery . . . . .</b>	<b>87</b>
Michael Freeman, Jose Gurrola II, and Spencer C. Payne	
<b>8 Imaging of the Sella and Parasellar Region . . . . .</b>	<b>95</b>
Amar P. Patel, Vivek P. Patel, and Max Wintermark	
<b>9 Classification, Pathobiology, Molecular Markers, and Intraoperative Pathology . . . . .</b>	<b>113</b>
M. Beatriz S. Lopes	
<b>10 Surgical Anatomy of the Sellar Region . . . . .</b>	<b>145</b>
Nathan T. Zwagerman, Stefan Lieber, and Juan C. Fernandez-Miranda	

<b>11 Combined Hybrid Microscopic and Endoscopic Transsphenoidal Surgery: Anatomy, Instrumentation, and Technique . . . . .</b>	<b>167</b>
David S. Baskin and Robert A. Scranton	
<b>12 Transcranial Approaches to the Sellar and Parasellar Areas . . . . .</b>	<b>191</b>
Bradley N. Bohnstedt, Todd Eads, Jonathan Weyhenmeyer, and Aaron A. Cohen-Gadol	
<b>13 Endoscopic Transsphenoidal Surgery: Anatomy, Instrumentation, and Technique . . . . .</b>	<b>213</b>
Paolo Cappabianca, Luigi Maria Cavallo, Domenico Solari, and Alberto di Somma	
<b>14 Three-Dimensional Endoscopy for Skull Base Surgery . . . . .</b>	<b>233</b>
Jason K. Chu, Brandon A. Miller, and Nelson M. Oyesiku	
<b>15 Endoscopic Transsphenoidal Pituitary Surgery: Results and Complications . . . . .</b>	<b>245</b>
Harminder Singh, Walid I. Essayed, Ibrahim Hussain, Kryscilla Yang, Vijay K. Anand, and Theodore H. Schwartz	
<b>16 Intraoperative Imaging for Pituitary Surgery . . . . .</b>	<b>259</b>
Peter T. Sylvester and Michael R. Chicoine	
<b>17 The Role of Endoscopic Transsphenoidal Surgery in the Management of Complex Lesions Involving the Skull Base . . . . .</b>	<b>277</b>
James K. Liu, Eleonora F. Spinazzi, Jean Anderson Eloy, and William T. Couldwell	
<b>18 Closure Methods Following Transsphenoidal Surgery . . . . .</b>	<b>303</b>
Paul A. Gardner, Carl H. Snyderman, Juan C. Fernandez-Miranda, and Eric W. Wang	
<b>19 Complications with Transsphenoidal Surgery: A Review . . . . .</b>	<b>315</b>
Garni Barkhoudarian and Daniel F. Kelly	
<b>20 Rhinological Complications: Avoidance and Management. . . . .</b>	<b>345</b>
Gustavo J. Almodovar-Mercador, Theodore H. Schwartz, and Vijay K. Anand	
<b>21 Medical Management for Pituitary Adenoma Patients . . . . .</b>	<b>359</b>
Gregory K. Hong	
<b>22 Transsphenoidal Surgery for Recurrent Pituitary Disease . . . . .</b>	<b>383</b>
Joshua Bakhsheshian and Gabriel Zada	
<b>23 Transsphenoidal Surgery for Craniopharyngiomas . . . . .</b>	<b>403</b>
Kenneth Foxx, Stephen Sandwell, Howard Silberstein, G. Edward Vates, Matthew Miller, Ismat Shafiq, Ekaterina Manuylova, and Laura Calvi	

<b>24</b>	<b>Transsphenoidal Surgery for Cushing's Disease</b> . . . . .	<b>427</b>
	Kalmon D. Post, Margaret Pain, Hekmat Zarzour, and Joshua Bederson	
<b>25</b>	<b>Transsphenoidal Surgery for Acromegaly</b> . . . . .	<b>441</b>
	Edward R. Laws Jr., David J. Cote, and Sherry Iuliano	
<b>26</b>	<b>Transsphenoidal Surgery for Prolactinomas</b> . . . . .	<b>457</b>
	Won Kim, Srinivas Chivukula, Anthony Heaney, Marilene Wang, and Marvin Bergsneider	
<b>27</b>	<b>Transsphenoidal Surgery for Nonfunctioning Pituitary Adenomas</b> . . . . .	<b>471</b>
	Sarah T. Menacho and Ian E. McCutcheon	
<b>28</b>	<b>Pituitary Tumors in Pediatric Patients</b> . . . . .	<b>487</b>
	Robert F. Dallapiazza and John A. Jane Jr.	
<b>29</b>	<b>Pituitary Apoplexy</b> . . . . .	<b>499</b>
	Patrick M. Flanigan, Arman Jahangiri, Han S. Lee, and Manish K. Aghi	
<b>30</b>	<b>Anatomical Approaches to Giant Pituitary Tumors</b> . . . . .	<b>517</b>
	André Beer-Furlan, Ralph Abi-Hachem, Ali O. Jamshidi, Ricardo L. Carrau, and Daniel M. Prevedello	
<b>31</b>	<b>Postoperative Management of Patients Following Transsphenoidal Surgery</b> . . . . .	<b>531</b>
	Martin J. Rutkowski and Sandeep Kunwar	
<b>32</b>	<b>Stereotactic Radiosurgery for Pituitary Adenomas</b> . . . . .	<b>539</b>
	Cheng-Chia Lee and Jason P. Sheehan	
<b>33</b>	<b>Radiation Therapy for Pituitary Tumors</b> . . . . .	<b>559</b>
	Trevor J. Royce, Jay S. Loeffler, and Helen A. Shih	
<b>34</b>	<b>Cytotoxic Chemotherapy and Targeted Therapy for Aggressive Pituitary Tumors</b> . . . . .	<b>581</b>
	Alissa A. Thomas and Camilo E. Fadul	
<b>35</b>	<b>Quality of Life in Patients with Pituitary Adenomas</b> . . . . .	<b>595</b>
	Douglas A. Hardesty and Andrew S. Little	
	<b>Index</b> . . . . .	<b>611</b>

Transsphenoidal Surgery

Complication Avoidance and Management Techniques

Laws Jr., E.R.; Cohen-Gadol, A.; Schwartz, T.H.; Sheehan,  
J.P. (Eds.)

2017, XVII, 629 p. 215 illus., 125 illus. in color.,

Hardcover

ISBN: 978-3-319-56689-4
