

# Contents

<b>1</b>	<b>From Structure to Function: An Introduction</b>	<b>1</b>
<b>2</b>	<b>Thermodynamics of Open Systems</b>	<b>5</b>
	References	14
<b>3</b>	<b>Self-assembly Phenomena</b>	<b>17</b>
	References	28
<b>4</b>	<b>Self-organized Stationary Structures</b>	<b>31</b>
	References	45
<b>5</b>	<b>Chemical Oscillations</b>	<b>47</b>
	References	67
<b>6</b>	<b>Propagating Waves</b>	<b>69</b>
	References	86
<b>7</b>	<b>The Belousov–Zhabotinsky Reaction</b>	<b>89</b>
	References	102
<b>8</b>	<b>Catalytic Reactions at Solid Surfaces</b>	<b>105</b>
	References	123
<b>9</b>	<b>Electrochemical Reactions</b>	<b>125</b>
	References	134
<b>10</b>	<b>Design and Control of Self-organizing Chemical Systems</b>	<b>137</b>
	References	157
<b>11</b>	<b>Systems with Interacting Particles and Soft Matter</b>	<b>159</b>
	References	179
<b>12</b>	<b>Molecular Machines</b>	<b>181</b>
	References	201
	<b>Titles in this Series</b>	<b>203</b>

Chemical Complexity

Self-Organization Processes in Molecular Systems

Mikhailov, A.S.; Ertl, G.

2017, VII, 208 p. 137 illus., 57 illus. in color., Hardcover

ISBN: 978-3-319-57375-5
