1	Introduction. Non-uniform Dark Energy	1
	References.	3
2	Friedmann Cosmology with Changing Dark Energy	5
3	Cosmology with Dark Energy and a Single Type of Matter: General Interaction Model	9
3.1	Linear Interaction Between Dark Energy and Matter. Exact Solution for Singular Cosmology Dominated by Dark Energy	12
3.2	The Role of Non-linearity: Interaction Laws $F(\rho_{vac}, \rho) = f(\rho)$ and the Corresponding Class of Exact Solutions	15
3.2.1	General Solution and Its Properties.	15
3.2.2	Example: Exact Solution for a Special Form of Function $f(\rho)$	17
3.3	Non-singular Cosmological Solutions Starting and Ending with Pure Dark Energy (de Sitter Universe)	20
3.3.1	A Toy Linear Model: Initial Jump in the Density	21
3.3.2	General Non-linear Model: Qualitative Picture. Non-singular Cosmologies Represented by Heteroclynic Phase Trajectories	24
3.4	Non-singular Cosmologies: Exact Solutions	29
3.4.1	General Exact Solution by the Semi-inverse Method	29
3.4.2	Particular Non-singular Cosmologies: Examples of Exact Solutions.	33
	References.	37
4	Friedmann Cosmology with Interaction Between Dark Energy and Multi-Phase Matter	39
4.1	Single Matter Phase Interacting with Dark Energy	40
4.2	Any Number of Matter Phases Interacting with Dark Energy	41
4.2.1	Linear Interaction Laws.	43

4.2.2	Quadratic Interaction Laws	46
4.2.3	Non-singular Cosmologies	50
4.3	Three Matter Phases: A Model for Our Universe	53
	Reference	55
5	Conclusion	57
	References.	58
6	Why Does the Universe Expand? (A Tribute to E.B. Gliner)	59
6.1	Inflation, or Blow-Up	59
6.2	A Great Life	61
6.3	V.L. Ginzburg: We Owe Gliner	65
6.4	Einstein-Gliner Vacuum	66
Appendix A: The $\rho_{vac}(H)$ Model as a Particular Case of the Model (3.4)		71
Appendix B: Two Classes of Non-linear Interaction Laws Allowing for General Explicit Solutions (the Case of a Single Matter Phase)		75
Appendix C: Behavior of Non-singular Cosmological Solutions Obtained by the Semi-Inverse Method in the Beginning and at the End of the Expansion (the Case of a Single Matter Phase)		77

Interacting Dark Energy and the Expansion of the
Universe

Silbergleit, A.S.; Chernin, A.

2017, IX, 79 p. 11 illus., 5 illus. in color., Softcover
