References	44
4 Understanding Poisons	47
Introduction	47
Poisons and Poisoning in the Past	47
Defining Poison	49
Classifications of Poisons	50
Ways of Describing Characteristics of Poisons	51
Features of Less Detectable Poisons	52
Poison Homicide and Other Homicides	53
Administration of Poisons	53
Action of Poisons	53
Action on Enzymes	53
Poisons Influencing the Nervous System	54
Corrosives, Irritants and Narcotics	55
Fatal Dose and How It Is Represented	56
Acute and Chronic Poisoning	57
Antidotes and Treatment for Poisoning	58
Possible Trends in Poisoning	58
Conclusion	59
Suggested Activities	60
Key Texts	60
References	61
5 Poisonous Plants, Animals, Bacteria, and Drugs	63
Introduction	63
Plant Poisons (Phytotoxins)	63
Colchicum Seeds	63
Atropine (Belladonna)	64
Aconite	65
Strychnine	65
Opium and Morphine	66
Cyanide, Potassium Cyanide and Prussic Acid	68
Digitalis	70
Nicotine	70
Hyoscine	71

Animal Poisons (Zootoxins)	71
Cantharides	71
Insulin	72
Bacterial Poisons	73
Bacteria and Bacterial Poisons	73
Typhoid, Tuberculosis, and Diphtheria	73
Drugs	74
Fentanyl	74
Methylphenobarbitone	74
Seconal Sodium	75
Succinylcholine Chloride	75
Vecuronium Bromide	76
Conclusion	76
Suggested Activities	77
Key Texts	77
