

# Contents

- 1 Hierarchical Architecture for Distributed Energy Resource Management** ..... 1
  - 1.1 Introduction to DERs ..... 1
  - 1.2 Research Challenges for Integrating DERs ..... 2
  - 1.3 A Novel Hierarchical Architecture for DER Management..... 3
  - 1.4 Related Work ..... 4
  - References ..... 5
- 2 Optimal Energy Management for Smart Homes** ..... 9
  - 2.1 System Model ..... 9
    - 2.1.1 Renewable Energy Generation ..... 9
    - 2.1.2 Energy Storage ..... 10
    - 2.1.3 Electricity Market ..... 11
    - 2.1.4 Control Objective ..... 11
  - 2.2 Inelastic Energy Demand ..... 12
    - 2.2.1 Relaxed Problem ..... 13
    - 2.2.2 Our Proposed Algorithm ..... 15
    - 2.2.3 Algorithmic Properties ..... 16
  - 2.3 Elastic Energy Demand ..... 17
    - 2.3.1 Relaxed Problem ..... 19
    - 2.3.2 Delay-Aware Virtual Queue ..... 20
    - 2.3.3 Our Proposed Algorithm ..... 20
    - 2.3.4 Algorithmic Properties ..... 21
  - 2.4 Performance Evaluation ..... 23
    - 2.4.1 Simulation Setup ..... 23
    - 2.4.2 Results and Analysis ..... 24
  - Appendix ..... 26
    - Proof of Theorem 2.1 ..... 26
    - Proof of Lemma 3.1 ..... 29
    - Proof of Theorem 2.2 ..... 30
  - References ..... 34
