1	Introduction	1
2	Radiation Contamination of Agricultural Products	5
2.1	The Fukushima Daiichi Nuclear Power Plant Accident	6
2.1.1	Overview of the Accident	6
2.1.2	Degree of the Nuclear Accident	7
2.1.3	Meaning of the Level 7 INES Scale	8
2.1.4	The Number of Evacuees After the Accident	9
2.2	Basics of Radiation	10
2.2.1	Radiation, Radioactive Materials, and Radioactivity	10
2.2.2	Radiation Exposure	11
2.2.3	Units of Radiation Dose	11
2.2.4	Radiation Dose Limit	12
2.2.5	Japanese Food Safety Standards of Radioactive Cesium	12
2.2.6	International Comparison of the Safety Standards for Radioactive Cesium in Food	13
2.3	Conditions of the Radioactive Contamination of Agricultural Products After the Fukushima Disaster	14
2.3.1	Conditions of the Radioactive Contamination of Rice, Vegetables, Fruit, and Forest Products	14
2.3.2	Conditions of the Radioactive Contamination for Livestock Products	16
2.3.3	Conditions of the Radioactive Contamination of Seafood Products	18
2.3.4	Forthcoming Challenges to Prevent the Spread of Radioactive Contamination in Food	19
	References	19

3	What Is Reputation Damage?	21
3.1	What Is Reputation Damage?	21
3.2	Causes of Reputation Damage	22
3.2.1	Food Products Have Substitutes	23
3.2.2	Uncertain Information	23
3.2.3	Asymmetric Information Problem	24
3.2.4	To Overcome Asymmetric Information	25
	References	26
4	Conditions of the Agricultural Commodity Markets	
	Before and After the Fukushima Disaster	27
4.1	Why Do Agricultural Commodity Prices Change After the Fukushima Disaster?	27
4.2	Conditions of the Agricultural Commodity Markets Before and After 2011	28
4.2.1	Market Price and Value of Production for Rice	28
4.2.2	Market Price and Transaction Value of Cucumbers	30
4.2.3	Market Price and Transaction Value of Apple	32
4.2.4	Market Price and Transaction Value for Shiitake Mushrooms	33
4.2.5	Market Price and Transaction Value for Beef	35
4.2.6	Market Price and Transaction Value for Pork	37
4.2.7	Market Price and Transaction Value for Chicken Eggs	38
4.2.8	Market Price and Transaction Value for Tuna Fish	39
4.2.9	Market Price and Transaction Value for Wakame Seaweed	40
4.3	Influence of the Price Change on the Producers of Agricultural Commodities Near the FDNPP	42
	References	42
5	Consumer Reaction and Willingness to Buy Food Produced Near the FDNPP	43
5.1	Overview of the Consumer Survey	44
5.1.1	Questions Related to Eating Habits	44
5.1.2	Questions Related to Food Safety Issues	46
5.1.3	Questions Related to Interests in Social Problems	46
5.1.4	Questions Related to Radioactive Contamination	47
5.1.5	Questions Related to the Respondents' Willingness to Buy Food Produced Near the FDNPP	48
5.1.6	Questions Related to Social Attributes	50
5.1.7	Respondents' Gender and Age Distributions	51

5.1.8	Food that the Respondents Consider the Product Origin	52
5.1.9	Classification of the Ten Products Based on the Respondents' Willingness to Buy.	53
5.2	Food Produced in Regions Near the FDNPP that a Majority of the Respondents Are Willing to Buy: Cucumbers, Apples, Beef, and Pork	55
5.2.1	Respondents' Eating Habits and Their Willingness to Buy.	55
5.2.2	Respondents' Perceptions of Food Safety Issue and Their Willingness to Buy	62
5.2.3	Respondents' Interests in Social Problems and the Willingness to Buy.	65
5.2.4	Respondents' Perceptions of Radioactive Contamination and Their Willingness to Buy	68
5.2.5	Respondents' Perceptions of Willingness to Accept Food from Regions Near the FDNPP and Their Willingness to Buy	73
5.2.6	Respondents' Social Attributes and Their Willingness to Buy.	77
5.3	Food Produced in Regions Near the FDNPP that About a Half of the Respondents Are Willing to Buy: Shiitake Mushrooms, Chicken Eggs, and Tuna Fish.	88
5.3.1	Respondents' Eating Habits and Their Willingness to Buy.	89
5.3.2	Respondents' Perceptions of Food Safety Issue and Their Willingness to Buy	94
5.3.3	Respondents' Interests in Social Problems and the Willingness to Buy.	98
5.3.4	Respondents' Perceptions of Radioactive Contamination and Their Willingness to Buy	100
5.3.5	Respondents' Perceptions of Willingness to Accept Food from Regions Near the FDNPP and Their Willingness to Buy	106
5.3.6	Respondents' Social Attributes and Their Willingness to Buy.	108
5.4	Food and Beverage Produced in Regions Near the FDNPP that a Majority of the Respondents Are not Willing to Buy: Rice, Mineral Water, and Wakame Seaweed	117
5.4.1	Respondents' Eating Habits and Their Willingness to Buy.	117
5.4.2	Respondents' Perceptions of Food Safety Issue and Their Willingness to Buy	123

5.4.3	Respondents' Interests in Social Problems and the Willingness to Buy	125
5.4.4	Respondents' Perceptions of Radioactive Contamination and Their Willingness to Buy	127
5.4.5	Respondents' Perceptions of Willingness to Accept Food from Regions Near the FDNPP and Their Willingness to Buy	133
5.4.6	Respondents' Social Attributes and Their Willingness to Buy	135
5.5	Factors Affecting the Consumers' Willingness to Buy Products from Regions Near the FDNPP	143
5.5.1	Effects of Respondents' Eating Habits and Food Safety Perceptions	143
5.5.2	Effects of Respondents' Interests in Social Problems and Risk Perceptions Toward Radioactive Contamination	145
5.5.3	Effects of Respondents' Perceptions of Willingness to Accept and Social Attributes	148
	References	151
6	Is There Reputation Damage?	153
6.1	Eating Habits and Reputation Damage	153
6.1.1	The Factor Causing Reputation Damage	154
6.1.2	The Factor not Directly Causing Reputation Damage	155
6.2	Knowledge of Radiation and Reputation Damage	156
6.2.1	The Factor Causing Reputation Damage	156
6.2.2	The Factor not Directly Causing Reputation Damage	157
6.3	Social Attributes and Reputation Damage	157
6.3.1	The Factor Causing Reputation Damage	157
6.3.2	The Factor not Directly Causing Reputation Damage	158
6.4	What Is Needed to Restore the Economic Conditions of Regions Near the FDNPP	159

Consumer Reaction, Food Production and the
Fukushima Disaster
Assessing Reputation Damage Due to Potential
Radiation Contamination
Aruga, K.
2017, XII, 159 p. 77 illus., Hardcover
ISBN: 978-3-319-59848-2
