

Contents

1	Introduction	1
	References	2
2	Synthesis, Characterization and Models of Graphene Oxide	5
2.1	Synthetic Methods for Graphene Oxide	6
2.1.1	Brodie-Staudenmaier-Hummers Based Methods	7
2.1.2	Free-Water Oxidation Method	8
2.2	Characterizations	12
2.2.1	Models and Modelling	17
	References	18
3	Regulation and Environmental Aspects of Graphene Oxide	23
3.1	Regulation on Nanomaterials	23
3.1.1	Regulation on Graphene Oxide	25
3.2	Environmental Aspects	27
3.2.1	Environmental GO Toxicity	27
3.2.2	Disposal of Nanomaterials	30
	References	31
4	Remediation Process by Graphene Oxide	35
4.1	Nanomaterials—Remediation Process	36
4.2	Graphene Oxide—Remediation Process	36
4.2.1	Solid Phase GO	37
4.2.2	Liquid Phase GO	42
4.2.3	Functionalized GO	44
4.2.4	Hybrid Material M-GO	46
	References	47
5	Conclusion and Outlook	51

Graphene Oxide in Environmental Remediation Process

Pendolino, F.; Armata, N.

2017, VII, 52 p. 20 illus., 19 illus. in color., Softcover

ISBN: 978-3-319-60428-2
