Part I The Theme

1 Introduction	3
References	11
2 Social Groups	13
References	19
3 Households	23
References	30

Part II The Basic Framework

4 Pure Exchange with Fixed Household Structure	35
4.1 Efficient Household Decisions	38
4.2 Equilibrium Existence	39
4.3 Ramifications	42
References	43
5 General Equilibrium with Fixed Household Structure and Production	45
5.1 Introduction	45
5.2 Model and First Main Result	47
5.2.1 Technologies and Firm Decisions	47
5.2.2 Allocations and Individual Preferences	48
5.2.3 Property Rights and Household Decisions	48
5.2.4 Feasibility and Optimality	49
5.3 Existence	51
5.3.1 Preferences on Aggregate Household Consumption. . .	51
5.3.2 Equilibrium Existence Result.	52

5.4	Ramifications	53
5.4.1	Second Welfare Theorem	54
5.4.2	Core Theory	54
5.4.3	Household Production	54
5.5	Final Remarks.	55
	References.	56
6	General Equilibrium with Variable Household Structure	59
6.1	Consumers and Households; Commodities and Allocations	59
6.2	Preferences and Welfare	61
6.3	Equilibrium Welfare	65
	References.	71
7	General Equilibrium with Endogenous Household Structure.	73
7.1	Existence of Equilibria with the Exit Option	77
7.2	Existence of Equilibria with the Exit and the Joining Option	80
7.3	Equilibrium Welfare	83
7.4	Outlook.	85
	References.	85
8	Cores	87
	References.	90
 Part III Other Forms of Group Formation		
9	Clubs, Matching, etc.	95
9.1	Clubs	95
9.2	Two-sided Matching.	97
9.2.1	Existence in the Marriage Market	98
9.2.2	Non-Existence in the Marriage Market	99
9.2.3	Discussion.	104
9.3	Other Models of Group Formation	105
	References.	106
10	Related Work	109
10.1	Related Literature	109
	References.	112
 Part IV Extensions and Applications		
11	Power in General Equilibrium	117
11.1	The Notion of Power	117
11.2	Changes in Formal Power.	118

11.3	Endogenizing Power	120
11.3.1	Power of Voice	120
11.3.2	Power of (Un)Friendliness	121
11.4	Formal versus Real Power and General Perspective	122
11.5	Example: Impact of Power Changes	123
11.5.1	The Model	123
11.5.2	General Comparative Statics for a Two-Person Household	126
11.5.3	Comparative Statics with Drastic Price Effects	130
11.5.4	Comparative Statics Across Households	133
11.5.5	Price-dependent Outside Options and Group Externalities	138
11.6	Concluding Remarks	139
	References	140
12	Risk-sharing Capacity: Markets versus Households	141
12.1	Introduction	141
12.2	Set-Up	142
12.3	General Formulas	143
12.4	Examples with $P = \{\{1, 2\}\{3\}\}$	146
12.4.1	Example I	146
12.4.2	Example II	147
12.4.3	Comparison	148
12.4.4	Example III	148
12.4.5	Example IV	149
12.4.6	Example V	150
12.4.7	Example VI	151
12.5	Examples with $P = \{\{1, 3\}\{2\}\}$	152
12.5.1	Example VII	153
12.5.2	Example VIII	154
12.5.3	Example IX	155
12.5.4	Example X	156
12.5.5	Example XI	157
12.6	Concluding Remarks	158
	References	160
13	Inefficient Household Decisions	161
13.1	Inefficient Net Trades	163
13.2	Inefficient Internal Distribution	164
13.3	When Outside Options Beget Efficiency	164

13.4	The Impact of Production	166
13.4.1	Consumer and Household Characteristics	166
13.4.2	Efficient Household Decisions and Pure Exchange	167
13.4.3	Inefficient Household Decisions.	169
13.4.4	Inefficient Household Decisions and Production	169
	References.	171
14	Public Goods and Public Choice	173
14.1	Consumer Characteristics and Allocations	173
14.2	The Equilibrium Concept	176
14.2.1	Definitions.	177
14.2.2	Alternative Condition for Public Choice	179
14.2.3	Adding Redistribution	179
14.3	Applications	180
	References.	181
15	Economic Policy Analysis and Implications.	183
	References.	186

Groups and Markets

General Equilibrium with Multi-member Households

Gersbach, H.; Haller, H.

2017, X, 186 p. 1 illus., Hardcover

ISBN: 978-3-319-60515-9
